# Report Summary

This summer in Tavush was full of sunshine, friendship, and creativity. 28 young people with disabilities joined our ABLE YOUTH workshops. They learned new skills, worked hard, and supported each other like a family.

They made beautiful silver earrings, resin bracelets, and wooden phone stands. The wildflowers of Tavush became part of their jewelry, turning nature into art.

For the first time, five participants sold their handmade work at a small local fair in Noyemberyan. Seeing people buy and admire their creations made them feel proud and valued.

**TO KEEP HELPING MORE YOUTH, WE STILL NEED TO RAISE \$8,000 THIS YEAR.**

**Your gift will:**

- Welcome more young people into the program,
- Provide tools and materials like silver and resin,
- Help connect these young artists with buyers and markets.

**Please donate today—your support changes lives!**

**Tavush is breathtaking—fields full of wildflowers, soft mountain air, and a sense of renewal.**
