

Removing Dis from Ability of 30 youths!

Report
July -October 2023

INTRODUCTION

Over the past three reporting periods, we have made significant strides in training and empowering 30 youths in Beehive Components, Honey Production, and Money Management. The support and encouragement from individual donors like you have been instrumental in making this project a success. However, we continue to seek funding to ensure that we reach our objectives and provide these young individuals with disabilities the opportunity to earn a sustainable living and live independently in their communities.

PROJECT ACHIEVEMENTS:

Empowering Youth: Our project has gone beyond training and has effectively empowered these young individuals. They are now equipped with essential skills that can transform their lives.

Skill Development: We have provided hands-on training, allowing these youths to gain practical experience in working with bees, maintaining honey quality, and manufacturing secondary beekeeping products. This not only boosts their self-esteem but also opens up new opportunities for their future.

WHY YOUR SUPPORT MATTERS:

Life-Changing Impact: Your contribution is not just a donation; it's an investment in transforming lives. By supporting this project, you are directly helping these young individuals break free from the constraints of disability and become self-reliant.

Sustainable Change: Your donation goes beyond temporary relief. It helps build a sustainable future for these youths, where they can support themselves and contribute positively to society.

Creating Opportunity: The funds raised will enable us to expand our reach and train even more young people with disabilities. Your support creates opportunities that have a ripple effect on the entire community.

Donate today and be a part of this life-transforming journey!
