

Removing Dis from Ability – ABLE YOUTH!

Report
January - June 2024

INTRODUCTION:

From January to June 2024, our project continued its mission of empowering youth with disabilities in Tavush Marz, Armenia. This progress was made possible by the ongoing support of our generous donors, whose contributions have been instrumental in our efforts to promote sustainable livelihoods and independent living for 80 young men and women with disabilities of which 30% are youth who have been forcibly displaced from Artsakh in September 2023. During the first half of 2024, our project has made progress in

developing the curriculum for the Vocational Orientation aimed at empowering youth with disabilities in Tavush Marz. This curriculum forms the foundation for future training programs and is a critical step towards achieving our goal of economic independence and societal inclusion for these young individuals. With continued dedication and support, we are confident in our ability to further expand our impact and provide even more opportunities for our participants.
