

HEAR THEIR STORIES

g3nerations

*Around the world, there are survivors of genocide and crimes against humanity with the courage and the need to tell their stories. **3 Generations** works to make this possible, collaborating with local artists, filmmakers, writers and activists to collect and share survivors' stories with compassion and respect.*

THESE STORIES MUST BE HEARD.

We invite you to help produce one of our upcoming projects, short films featuring survivors from Cambodia, Bosnia, the Holocaust, Tibet, Burma and Zimbabwe. As a donor of any amount, you join 3G in gathering stories not only for posterity, but because storytelling heals individuals who share their experiences and rebuilds the cultures that genocide obliterates. Please visit our website to experience our growing collection of powerful stories, videos, photos and art.
