Healthworkers of the Future Scholarship Fund

This scholarship fund was found to support more students in Medical areas to raise many more qualified healthworkers for the future. The students from vocational high schools and universities are benefiting from this fund.

It is possible to support this fund via online donations or bank transfers.

International Scholarships for Medical Faculties and Researches

We aim to increase the number of scholarship types such as TEV Lipodistrofi Research and Education Scholarship, TEV International Orhan Birman Medical Scholarship to improve the integration and cooperation between Turkish scientists in health industry and global researches.

Corporate Partnerships

We are glad to cooperate with local and international corporations to enable them take part in social responsibility projects where they can support the health sector. All of the projects in this presentation and more can be discussed with each potential partner.
