

#EuSouProtagonista

The #EuSouProtagonista project lasts 6 months and serves teenagers from 15 to 17 years old, aiming to stimulate protagonism by promoting reflection and creating a life project, with progressive and contextualized actions of access to culture, sports and leisure. In general, it contributes to the empowerment of Service users, supporting them in their individual and community discoveries, promoting autonomy, capacity for interaction and collective action in the neighborhood.

The entire educational path is applied with active methodologies, which place adolescents as the center of action; and with experiential methodologies, which enables learning through experience. The main actions are:

- >> Expedition in Nature in Campos do Jordão (in partnership with OBB - Outward Bound Brasil);
- >> Exits to the cultural and leisure space;
- >> Actions with families;
- >> Execution of the workshops: self-knowledge; personal skills; and me & community;
- >> Elaboration and execution of an intervention project in the community;
- >> Presentation of projects in the community;
- >> Visits and simulation of interviews at partner companies.

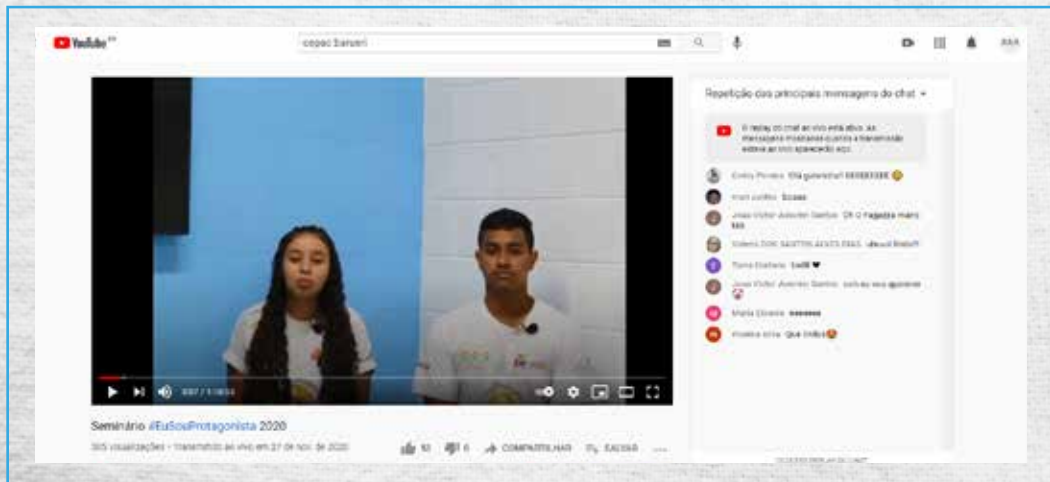

PHOTOGRAPHIC RECORD OF 2020 ACTIVITIES

Expedition Outward Bound Brasil

Classroom activities following all safety guidelines from health agencies

Project closing seminar (transmitted in virtual form).
