

PROJECT MANAGEMENT FOR CHANGEMAKERS

An online course where to learn how to create, execute and scale effective solutions to global challenges, then apply for funding to make it happen.

LEARN

We will take budding changemakers through five core chapters based on the five phases of Project Management, with lessons given by experienced and impactful changemakers from six continents.

CONNECT

They will meet and learn from like-minded people from across the world through the discussion forum and community group. They can also connect and engage with the lesson teachers during regular virtual office hours.

IMPACT

They will develop the skills needed to become an effective changemaker and create or scale a project that positively impacts their community. Upon completion of the course, they will be eligible for a grant to implement their project.

LESSONS

Designed to be completed over 8 weeks, this self-paced course contains 20–25 minute long lessons given by youth, for youth.

CHALLENGES

Teachers have created small challenges for each lesson to deepen the understanding of the material through practical application.

MATERIALS

Each teacher has provided a set of complementary materials, specially curated to enrich the learning journey.

ABOUT GLOBAL CHANGEMAKERS

Global Changemakers is an international youth organisation with an unshakable mission to support youth to create positive change towards more fair, inclusive and sustainable communities. We do this through skills development, capacity building, mentoring and grants. Since 2007, we have trained thousands of young people from over 180 countries in both our online and in-person programmes and have provided grants to over 360 youth-led projects, which have had a combined impact on over 6 million people.
