A COMMUNITY CENTER FOR CHUPARIPAL

EDO. SUCRE, VENEZUELA.

OBJECTIVE
Strengthen the social fabric of the rural community of Chuparipal (Benítez Municipality of the Paria Peninsula) through the construction of a community center and strategies for its sustainability.

PROBLEM
Deteriorated community infrastructure, broken families as a result of migration, and few economic opportunities. What has generated apathy and lack of motivation in its people.

IMPACTO
The Chuparipal community center will be representative throughout the municipality due to its environmentally friendly construction characteristics, it will be the place, where they can organize, train, in favor of educational, social, cultural, sports, economic development and growth, which improve the quality of life of the population. It will also serve to provide primary medical care, for individual and social well-being.

COMMUNITIES benefited: Chuparipal, Río del Pilar, Guasimal and Chorochoro. With incidence in 200 families and a reach of approximately 800 people.

STEPS
1- Create a civil association capable of managing the use and maintenance of a community center.

2- Construction of the community center with active participation of the community in the design and construction process

Develop strategies to establish alliances that guarantee sustainability and the creation of opportunities that improve the quality of life.
