

BUILD MAYA

END OF YEAR REPORT 2020-21

APRIL_JULY

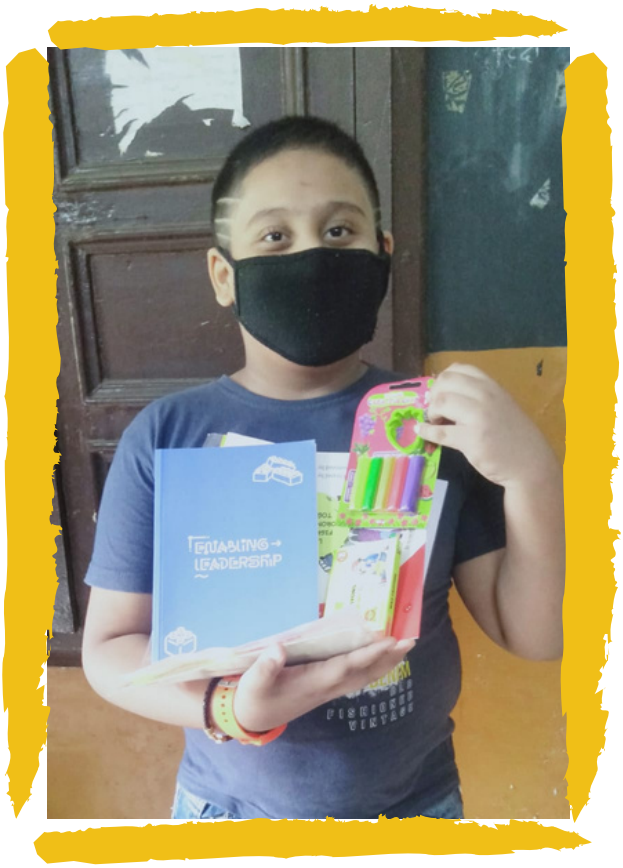

INTRODUCTION

The new program year has kicked off! To ensure that we have a really engaging experience with the best outcomes for the children, we've built on the knowledge, learning, and best practices from our virtual intervention last year. Here's an update from the action-packed quarter that was. Hear from our staff, students, and school partners!

DONATION AMOUNT: $2425

No. of Children Supported: 20

Areas of Impact: Pune, Bengaluru, Dharwad

NEED FOR VIRTUAL INTERVENTION

GROUP NAME: SANT TUKARAM EMS
GRADE: 5
LOCATION: PUNE

Significant Learning Loss and Increased Vulnerability
Several studies have revealed that the lockdown has resulted in 2x learning loss for most children. There were 300,000 calls for help and support to the Childline India number, an almost 50 % increase.

It is crucial now more than ever to ensure that our students continue their learning through consistent engagement and participation in our programs to develop the resilience, positivity, and sense of community essential to come out stronger and ready to rebuild from this crisis.

PROGRAM DETAILS

PROGRAM OUTREACH

With the support of the schools, parents, and the community, we will be working with 250+ children across 3 sites in India.

Onboarding and Training
Our Teachers underwent 30 hours of rigorous training in pedagogy, facilitation, and techniques to make the virtual sessions effective and engaging for the children. Armed with this, they are raring to go, ready to tackle another challenging year!

Student Engagement
While sessions officially kick off in July, all our teams worked towards student engagement in their summer break to ensure their wellbeing through the pandemic. Moreover, they continued to focus on skill development through various activities.

The students used the Human-centred Design thinking process to understand some of the problems in their homes and communities. They chose the problems they wanted to solve and after the process presented some solutions in the form of a story or a working prototype.
The students worked on problems with the themes of water wastage, food wastage, pollution, deforestation and homelessness.

FROM THE CEO'S DESK

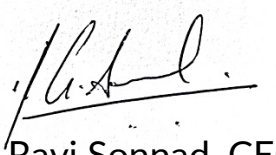

Ravi Sonnad, CEO Enabling Leadership

The tragic scenes from the second wave now seem to be behind us; however, this pandemic continues to impact the lives of children – schools remain closed for a second year.

Last year, we knew that our virtual program has helped build much-needed positivity, resilience, and a sense of connectedness necessary for the children to weather this storm and come out ahead. Instead of waiting for the schools to re-open, we've used the last 2-3 months to design and roll out an even more innovative set of virtual sessions that will start at the end of July.

No one can be sure what the next 6-12 months will look like. However, we know that it is essential that we continue to work with the children, especially during these trying times.

Ravi Sonnad, CEO
