

Join us in providing medical kits, health checkup, and hospital treatment for children living in the cemetery.

Summary

700s of children between 1 and 14 are living in the Pasay City Cemetery. Children are exposed to disease with a lot of dirt and rotting water from the cemetery. They got a small wound and skin disease of unknown cause. Without getting the right treatment, they just leave it until the wound and disease get better. Under this project, 700 poor children will be given medical kits (Vitamin, Wound ointment, Bandage, etc), health check-up, and hospital treatment. Facing Covid-19, also urgent mask support.

Challenge

Pasay, Manila in the Philippines, A thousand people build a small house on the graves and live in the cemetery. There are also about 700 children between 1 and 14 there. For the children, the cemetery is a study room and playground. They fell down from the grave and get hurts every day. Even if it hurts, there is no medicine to apply. The only thing that can do is waiting for the wound to heal. In

addition, various garbage and skeletons are scattered all over the place. Children are exposed to unsanitary environments are threatening their health. Children first need their most basic needs is health.

Solution

This project will provide children with medical checkup, hospital treatment. Also will be given medicines that are most needed such as Vitamin, Wound ointment and other supplies such as masks and disinfectants. It will help increase the children's immunity, protect them from disease and contribute to healthy growth.

Long-Term Impact

Our goal is to bring critical medical care to children in the Pasay City Cemetery continuously. We plan to cooperate with the local hospital to children can get all medical services for free at the hospital. Medical opportunities will give poor cemetery children chance to be treated when they are sick, prevent disease and have a better future, while providing a greatly improved quality of life.
