Climate change causing monsoons in Pakistan to become increasingly unpredictable and catastrophic

People of Pakistan again in crisis, thrice in a year
FLASH FLOODS HIT SINDH AND BALUCHISTAN

FLOODS SWEEP THROUGH SINDH
Canal breaches cause devastation, submerges dozens of villages and crops

5000 houses in Sindh have been destroyed or damaged and floods have affected acres of cropping land. Pakistan is worst-hit by torrential rains that lashed several cities and remote areas, triggering flash floods, causing deaths, injuries and loss of property. It has brought cities to the stand-still and forced hundreds of residents to move to safer places.

DISTRICT DADU IN SERIOUS TROUBLE:
80 areas declared calamity affected

More than 350 villages inundated, 80 areas of Taluka Johi, District Dadu was declared as “Calamity Affected Areas” by the Government of Sindh, Relief Department on 10th August 2020. Around 200 villages located in 10 union councils of taluka Johi, Dadu were mainly affected by the flooding, people have lost their livestock and the summer cotton crop, all roads and communication network had been affected due to the flooding.
More than 50 people died over the floods in taluka Johi, district Dadu. Over 20,000 households have been affected in 10 union councils. A large number of livestock has either perished away or displayed. 200,000 acres of standing crops has been destroyed. 200 water sources have been damaged.

The rapid assessment is in process; however the details of the initial report are as follows:
