Climate Change, Museum , Non Profit

Together we can start the construction of a better world.

With your donation, from \$ 10 USD, we can start the program of teaching our generations the care of nature, **the commitment to a better world.**

Teaching children in Chiapas how to grow forests

Teaching the children how to create and protect the forests is centered in recovering the tradition of caring for nature and producing wood to cover their needs.

In CLIMATE CHANGE, program we have had several achievements:

1

REFORESTATION

We integrated new indigenous communities

2

COFFEE PRODUCTION

An integration of a group of coffee producers

3

TREE PRODUCTION

The production of at least 60, 000 trees

GlobalGiving

WORKING TOGETHER WITH COMMUNITIES, FOCUSED ON PRODUCTIVITY AND NATURAL RESOURCES

The Production of 60,000 trees of endemic species from the Highlands Los Altos de Chiapas, such as Madroño, Pine, Oak, Aile Tree.

Na Bolom Asociación Cultural

We are a non- profit Civil Association founded in 1950 by Danish researcher Frans Blom and Swiss photographer Gertrude DUBY.

Our mission is to investigate, promote and rescue the heritage of the indigenous communities of Chiapas and to contribute to the respect and promotion of human rights through health, environment, education, culture and community development programs. Our vision is to be a benchmark as research center, trigger for discussions, promoter of heritage, education and critical processes available for every one.
