

PEER EDUCATION TRAINING

NACOHAG has considerable and proven experience in offering participatory peer education sessions.

A typical training session will include the following components:

- HIV/AIDS myths and misconceptions
- Behaviour change communication
- Nutrition and wellness and positive living
- Reproductive and sexual health
- Sexually Transmitted Infections
- Family Planning
- TB and its management
- Disclosure and managing opportunistic infections
- The self concept, stress and stress management
- Gender and social cultural dimensions including gender based violence

About Us

NACOHAG works amongst the populations in and around Naivasha, targeting the many workers in the various farms engaged in the production of flowers. For the 17 years that NACOHAG has been in operation, a value system has been nurtured which has gained considerable local goodwill and an appreciation expressed by the communities that NACOHAG serves. Central to the organizations ethos is a participatory approach to care that aims to empower people at all levels of the community.
