

## Outdoor Learning Space for Children in Rural Nepal

Thanks to all our donors and supporters who have continued supporting this project. We are just over halfway to our goal. We have raised \$10,913 so far.

When we prepared the last report, we had used \$6,753.70 in purchasing the new land at MMRS and building a cemented stone wall to manage the land area at our second school. This time we have continued adding more playground area, and also bringing some outdoor play equipment.

### Second Update

#### 1. Land Purchase:

We have added land at our second school, Kotbada Impact School in Kumalgaun village. The newly purchased land is slightly over 150 square meters. The new land will provide more space for the children to play once we put a stone wall around it.

Costs:

Land cost: \$1,470.60

## 2. Outdoor Play Equipment Purchase:

We also ordered outdoor playing equipment for Modern Model Residential School. Two metal slides, two swings and two see-saw systems were ordered from a company's metal factory in Nepalgunj. They were transported to the nearest road, and the local villagers carried them on their shoulders and their backs for almost eight hours to reach the school from the nearest road. They are going to be installed once the monsoon is over in late August.

Outdoor Playing Equipment

Outdoor Playing Equipment Being Carried by Locals on Their Shoulders

Costs:

Metal Equipment cost: \$1,291.70

Transportation: \$815.13

Total: \$2,106.83

## Thank You

Thank you so much to all who have donated to our campaign. We still need funds to purchase outdoor playing equipment for the kindergarten children, a truss roof for the kindergarten play area, artificial/natural grass in the outdoor area, and a stone wall for the newly purchased land at our second school. Hope you will keep supporting. Thank you very much.
