DOMINICAL, COSTA RICA

## GUIDED TOURS

---

Tuesday - Sunday

Scheduled at 9am, 11am, 1pm, 3pm

24 HOUR EMERGENCY CLINIC

8589 7812

## ABOUT US

---

Alturas Wildlife Sanctuary (AWS) is a 501(3) C US and Costa Rican non-profit organization dedicated to rescuing, rehabilitating and releasing Costa Rica's wildlife. We operate a 24 hour emergency clinic and provide round the clock care to all our animals. We also provide refuge to those animals which cannot be returned to the wild, and care for them in our sanctuary.

## TOURS

---

We offer four daily guided tours throughout our sanctuary from Tuesday to Sunday. Here you will get the chance to see some of Costa Rica's wildlife up close whilst learn about the animals' personal stories. Each tour lasts approximately 1 ½ hours and all proceeds go towards the care and maintenance of the sanctuary and rescue center. Visit our website at [www.alturaswildlifesanctuary.org/tours](http://www.alturaswildlifesanctuary.org/tours) to reserve your spot on our tour.

## VOLUNTEERING

---

We run a volunteer program 365 days of the year and welcome volunteers from all over the world. Volunteer anywhere from 1 week to 3 months, and gain the opportunity to actively participate in our wildlife rescue, rehabilitation, and conservation program. Volunteers assist the team with daily animal husbandry tasks, such as cleaning enclosures, preparing and providing food, maintaining enclosures, and designing and collecting materials for environmental enrichment. We also offer wildlife husbandry and veterinary internships for those studying related topics. [alturaswildlifesanctuary.org/volunteering](http://alturaswildlifesanctuary.org/volunteering)
