

*Introducing*

**THE 'HOW MANY ELEPHANTS'  
BEEHIVE FENCE**

Launching on World Bee Day - May 20 2025

In collaboration with:

**HOW MANY ELEPHANTS**

[www.howmanyelephants.org](http://www.howmanyelephants.org)

# THE 'HOW MANY ELEPHANTS' BEEHIVE FENCE

WE WILL INSTALL  
**50 BEEHIVES** IN  
TANZANIA'S  
NGORONGORO  
SERENGETI  
ECOSYSTEM,  
TO PROMOTE  
**HUMAN-ELEPHANT**  
**COEXISTENCE**

HOW MANY ELEPHANTS

In collaboration with:

**WILD  
SURVIVORS**

# WHY? HUMAN-ELEPHANT CONFLICT IS ESCALATING ACROSS AFRICA AS HUMANS EXPAND INTO ELEPHANT HABITATS.

THIS HAS BECOME A **SERIOUS ISSUE** RESULTING IN **CROP DESTRUCTION**, FINANCIAL LOSS FOR FARMERS, OR CAN LEAD TO RETALIATORY KILLINGS OF ELEPHANTS.

# DID YOU KNOW?

**ELEPHANTS ARE  
SCARED OF  
BEES!**

**THAT'S RIGHT,  
THE LARGEST  
LAND ANIMAL ON  
EARTH IS AFRAID  
OF ONE OF THE  
SMALLEST!**

# AN INTERESTING FACT!

**FARMERS' CROPS  
LIKE WHEAT,  
MAIZE, AND  
BARLEY ARE LIKE  
NUTRITIOUS  
CANDY FOR  
ELEPHANTS!**

SO, IF AN ELEPHANT TRIES TO CROSS A BEEHIVE FENCE TO GET TO THE CROPS, IT DISTURBS **>40,000 BEES PER HIVE, FORCING THE ELEPHANT TO RETREAT.**

# AND, ANOTHER INTERESTING FACT!

THE EAST  
AFRICAN HONEY  
BEE IS **SMALL BUT  
MIGHTY.**

ELEPHANTS FEEL  
BEE STINGS LIKE  
WE DO!

THROUGH THE WORK  
OF  **WILD  
SURVIVORS**

AND THEIR BEEHIVE  
FENCES, CROP-  
RAIDING INCIDENTS  
HAVE DROPPED BY  
A WHOPPING 90%

AND WE  
POLLINATE  
THE FARMERS  
CROPS TOO!

# THE 'HOW MANY ELEPHANTS' BEEHIVE FENCE

AND ANOTHER  
WIN - LOCAL  
WOMEN  
PROCESS THE  
HONEY AND  
SELL IT TO THE  
SAFARI LODGES

# TO GET INVOLVED WITH THE 'HOW MANY ELEPHANTS' BEEHIVE FENCE

- LIKE THIS POST
- SPREAD THE WORD
- MAKE A DONATION
