Cheerful Updates from MWCC Global August 2023

Social Cancun

and green

Our new digital platform is a result of our new

decentralized

approach, in which the role of MWCC has changed to host, facilitate and support

networks and

platforms. We have created a new

networking

model that involves our

community, with each

node having its own unique identity, verification, and marketplace.

The goal is to create

value for others through

collaboration, networking and sharing of knowledge.

A new strategy - expanding MWCC to new countries

Inspired by the social networking model in the

Western world, we are now

expanding our

strategy to other countries. We

have initiated

partnerships with local

community groups and

organizations, creating a

digital

network that connects

people across the globe.

Our vision is to

create a

vibrant

network that

promotes

global

collaboration and

development.

Our new platform

is designed to

facilitate

connections and

opportunities for

people worldwide.

Circles of Hope:

Real world circles in a digital ecosystem

As we navigate the challenges of the

global

climate

crisis, we

have

developed

a

new

strategy

to

create

networks

of

hope

and

support.

Our

goal

is to

build

a

community

of

people

who

are

working

towards

a

better

world.

Support the word

Every

day,

people

are

making

a

difference

in

their

communities

and

around

the

world.

We

need

to

support

these

efforts

and

show

our

appreciation.

Join us at

the

Annual General Meeting
