## Program: Educate 10 Orphan Girls in Rural Nepal

Thanks to all our donors and supporters who have donated or helped spread out the words about our recent children's sponsorship Campaign. The purpose of the campaign was to support Modern Model Residential School, our partner school in Naraharinath Rural Municipality in Kalikot district in Western Nepal to bring in 10 girls who are orphans or children in desperate need of support. We have received $981.47 from this fundraiser so far. The funds raised will cover the costs of education, room and board for two new girls at the school.

## Children's Update

With support from this fundraising campaign, we recently brought in two girls at our hostel facility who were in need of support. The first child, Nisha BK, is eight years old and comes from so called lower caste in Nepal. Her dad died five years ago because of poor health, and her mom married another man and left the village six months later. Since then, Nisha has been staying with her grandparents who are too old to take care her education and upbrining. She is glad to be selected by the local government to be placed at our hostel facility.

Bismata Bista is six years old now. She comes from the nearby village. Last year, her mom passed away after she fell from the cliff while cutting grass for the cattle. Her dad is still alive, but he doesn't have a job. His earning from the limited land used for farming doesn't yield enough to feed the whole family. Bismata has three other siblings.

## Thank You

Thank you so much to all who have donated to our campaign. The funds raised so far will go towards these two wonderful children's education, room and board and care for a year.

Nisha and Bismata
