Impact Schools' Report (07.19.2022)

Program: Educate 12 Orphan Girls in Rural Nepal

Thanks to all our donors and supporters for continuing to support this project. The purpose of the campaign was to support Modern Model Residential School, our partner school in Naraharinath Rural Municipality in Kalikot district in Western Nepal to provide education, housing and boarding to 12 girls and children who are orphans or children in desperate need of support for a year. Five girls in need, Nisha, Bismata, Pushpa, Prakrati and Aisha were supported in 2021. Similarly, four children, Yunisha, Saraswati, Damasha and Bismata are being supported in 2022. We will update once more children are supported. Following are some of the pictures of the supported children with the hostel family at Modern Model Residential School.

Note: The full names of the children and each individual picture of the child have not been made public as GlobalGiving restricts them because of the privacy policy relating to the children.

Thank you so much to you all for all your support to these wonderful children for their education and growth.

Thank You
