# MHO One Pack For One Child Project Progress Report

## 1 Introduction

MHO is women headed a non-governmental, organization established in 2011 with mission Empowering and changing the personal social and economic status of all women and children's of Ethiopia who live in under poverty by giving the opportunities and supports which leads to development. MHO founded by a role model women, who long been served in Ethiopia Red Cross. She currently considered by many Ethiopian as '*mothers*' to *Ethiopia's most vulnerable and kid*. . Since its establishment, the organization has implemented programs /projects mainly focusing on addressing the felt needs of targeted women and children. To address this unmated needs MHO has tried its best to mobilize resources and solicited funds through global giving platform .With this background MHO adopt developed one pack for one child project with target goal of \$30,000

## 2 Goal /objectives of the project

The goal of the project is to enable and create early childhood education opportunity for highly vulnerable children in Ethiopia to properly attend their education as equal as their peers as well as achieve better academic results through educational materials and nutritional support This project aims to support at least 5000 highly vulnerable children in Ethiopia by the year 2022.

## 3. Progress of the Project Implementation

### 3.1Planned activities

*The following activist were planed to the stated objective*

- A. Raise fund through Global Giving crowdfunding platform

### 4 .Children beneficiaries by own words about the impact of the project

My name is Biruktiet I am 10 years old and I am a 4<sup>th</sup> grade student. I am Kirokos sub-city Kebele 05. I am from poor family. I have two brothers and 1 sister. My two brothers are the one who supported family by doing street vender Last year I was not properly attended my education as equal as my peers. Because I don't have needed educational material like exercise book, pen penile, text book and etc . In Ethiopia if you don't have needed education material, you are not attend properly class, and doing properly class work and homework .If your are not doing properly class work and homework ,no one can understand your problem you will be physically punished in class . Last year when I want to school every morning, I am worried my I punished in front student since don't have needed educational material. In Ethiopia if you don't have needed educational material for that specific class corporal punishment waiting for you. Last year I physically punished several time in front of student for I am not fulfilled of needed educational maternal. Despite physical punishment I was ashamed in the class for not fulfilled needed educational material. As result I my interest to go to school was completely decline and not to freely go to school .For the next academic year hope I will properly attend my education as equal as my peers as I have already got all needed Educational material with kind support of MHO. I don't worried anymore about Educational material,

Finally I would like to thank my MHO , one pack for one child project kind supporters and GilobalGiving , hadn't been their support, I will stopped my education and will participate unwanted child labor .Really my hope is restored

Natneal is 14 years old and he is grade 8 student. He is the only child in their house. He ranked 1st in grade 7 last year. He received educational material

support. He is studying hard to score good result this year too. He usually studies in public library. He also received supporting books from MHO. He attended the summer tutorial program arranged by MHO. He explained that the summer tutorial program was very supportive and helped him a lot. He hopes to become an astronomer.

He has some illness in his ear last year. But, currently. But now he has recovered from his sickness. This time his health condition is very good. He supports the family such as washing his own clothes and cooking meals.

The economic basis of the family is the salary his guardian gets from her employers. She is earning a small monthly salary from kebele working as janitor. She is also working in similar work in an organized cooperative which engaged in sanitation of the town. So, she is working day and night to survive the family. They are living in kebele house on which they expressed as a relief from house rent fee. The guardian expressed her best gratitude for MHO and one pack for one child project kind supporters and GlobaGiving

Kalkidan is 11 years old. She is grade 5 student. She is among a good performing student. She has received educational material support from MHO. She is studying in group study 1 to 5 grouping. The family is living in a kebele house. She is supporting the family through housework such as making beds and cleaning house. Her health condition is good. However, she sometimes has gastric problem. MHO has advised her to have a medical checkup and then after follow up her health condition as much as possible.

## MHO One Pack For One Child Project Progress Report

The guardian of Kalkidan is house maid. The income of the family is from the husband of the guardian. Her guardian has some health problem and has been treated in a private higher clinic through referral linkages facilitation by MHO. She is also taking ART treatment properly. She usually attends counseling and guidance service in the health center. The guardian expressed her best gratitude for MHO. The guardian expressed her best gratitude for MHO and one pack for one child project kind supporters and GlobaGiving.

### 5 Conclusion

From testimonial Children beneficiary's aforementioned we can say that one pack for one child project already born fruit and attained the desired outcomes and impacts. Apart from educational material support and creating early childhood education opportunity for most vulnerable kid and children in Ethiopia, One pack for one child project has created an opportunity in supporting national effort in reducing Children vulnerability to trafficking, migration sexual exploitation and other forms of vulnerability by fulfilling their basic needs.

Finally we affirm four Kind supports and Global Giving with pleasure that MHO adhere to and work within strict guidelines and procedures Global Giving in all project actives we do and we will deliver all the required report on time as scheduled/ In this regard MHO earned its reputation and established good rapport with government, development partners and project beneficiaries

\*Note that the name indicated in this report is MHO consistence and beneficiaries .Also you can visits our website you can further see OMN continuance and beneficiary
