### **Each One Teach One half year report 2021 June.**

Each One Teach One was established on the 18<sup>th</sup> of March 2014 as a Non-Profit organization, with a vision to create a well-developed South Africa that is a better social cohesive society with an aim of fighting illiteracy and poverty in this country. This vision is supported by the Youth led team of office bearers whom had built a well reputation in social enterprise for the past five years. Friends gathered to change the world started by changing their mind to actions on a daily basis.

### **2. Objectives**

(a) The organization's main objectives are to:

- To create employment in disadvantage communities in townships through skills development and small, medium enterprise support projects.
- To create accessibility of resources to assist with the education of the disadvantage in aid of the country's development.
- To use recreation, arts and culture with tourism to facilitate non formal education in creating a Knowledgeable society that shall be social cohesive in a cross cultural living of nations.

(b) The organization's secondary objectives will be to:

- To create a network of services offered by local communities in disadvantaged background and fundraise for the development of their businesses targeting youth to combat youth unemployment.
- To enhance arts and culture, education and tourism through skills development workshops and trainings.
- To brand a patriotic South African diverse nation, by using good service delivery in Events management, Tourism, Arts and Performances, and Hospitality.

### **3. Our Mission**

To fight illiteracy, unemployment and poverty in South Africa by means of social enterprise aimed at entrepreneur development, skills transfer and talent enhancement for the youth of South Africa with focus on Tourism and Hospitality, Education, arts and Culture, business development and events management

### **Meals 4 ALL program report ( breakfast, lunch and Lunch Boxes)**

**Coordinated by our programs Manager: khethisa Borocho**

**Facilitated by the Meals program Coordinator: Precious Ndlovu**

Meals one of the struggles of life in the disadvantaged community of Kliptown after the Pandemic of Covid19, it is also one of the struggles of life in Kliptown is inadequate nutrition for growing young bodies. With the high rate of unemployment in the community of Kliptown, some families cannot provide 3 meals a day for their families which is a huge problem for especially for our young people who are still in school. We as Each One Teach One have created this kind of a program that helps to support disadvantaged families who have kids.

MEALS 4 ALL- targeting young people who are going to school, providing them with lunch boxes and 3 meals a day for each child and as well as other members of the community that faces the same problem and challenges, the aim for such programs is to become supportive figures and never turn a blind eye on such situations and also to meet the needs of other disadvantaged families through providing thing such as the school uniform for kids.

In the morning before they go to school they eat breakfast, after breakfast they get their lunch boxes for lunch at school, after school they also eat their last meals for the day. These meals really play an important role in our community because some of the kids really come from poor backgrounds whereby they only eat once and that only at night.

Checking from our database, our register estimated an amount of 200 young people when we started in January 2021 with the program, after some school visits the numbers then went up month by month after some Teachers advised some of the students to join us at the center to help them with their school work.

Currently we have a number of 350 young people and more keep on coming but due to shortage of space we have to turn down some applications.

Our meals for all program caters for +/- 300 meals for Breakfast, we give out 350 lunch boxes if all the kids are going to school, then we dish out +/- 300 plates for lunch before the kids start their program and their homework. Please see pictures in the second last page.

### **Educational program**

#### **Program coordinator: Sthembiso Mlangeni**

#### **Tutoring and after school activities**

Educational programs are aimed to develop a culture of support to the need of educating the young South Africans; Education is the only liberation tool from mental slavery. It is in our interest to support every South African Child with the right to education and source out all forms of resources to enhance better education systems in the country. The program has a number of activities aim at different levels of education in formal and non-formal education. We offer school uniform and educational material. In raising funds through different fundraisers we are in position to assist tertiary scholars with funding and access to funding of their education as beneficiaries from the program, targeting exchange programs with international institutions with share of formal and non-formal education.

With the same vision of creating a community full of educated young people, the tutoring and the after school program was created to help young people are not performing well at school, this program started to operate after an invite we received from one of our local school. Some of our learners who were not performing well during the beginning of the year where given attention by both the volunteers and the stuff of Each One Teach One as we have promised that we will not only provide school uniform, but we will support our young people with all we have for them to get good grades.

After we collected reports and checking the progress of the learners we realized some of the learners have improved and they are now coming, through the invitation from the school some of the young people were giving an opportunity to come and be part of the organization and also get help in their studies. With a high number of kids in one class we have decided to have two sessions for one class a day.

The session starts at 10 until 11.30 and the other session takes place after school when they are done eating their lunch. So each class has a number of +/- 20 kids, with this small number in class all the kids get all the attention they need from the tutor to help them understand everything they are doing in class.

**Material used for facilitation:**

- Teachers guide for all grades (Grade 1 to grade 12)
- Stationary ( flip charts, white board, blank papers for print outs, markers and more)
- School hand out assignments and projects.
- Writing books and pens

### **Number of participants**

As part of the Meals 4 All program we prepare over 250 plates of food everyday and also 2500 lunch boxes for the kids. Some times all th 350 kids avail themselves at the center but some times others don't come through because of some of the responsibilities they have at home.

### **Below please find the number of grades that we have for our daily programs.**

Name of tutor	Grade	Number	Sessions a day
Thando Yende	Grade 1	18	2
Serame Mofokeng	Grade 2	21	3
Xolani Vilakazi	Grade 3	16	1
Lihle Setlaba	Grade 4	32	2
Nokwanda Mbanjwa	Grade 5	25	2
Zanele Mazibuko	Grade 6	18	2
Simphiwe Hlatshwalo	Grade 7	19	2
Only Ntantiso	Grade 8	31	3
David Thamane	Grade 9	20	3
Victor Ilesoana	Grade 10	25	2
Jabulani Nzimande	Grade 11	18	2
John Vilakazi	Grade 12	15	1

Attached please find the registers for all the classes, Budget used for the Meals 4 ALL program and the stationary for the Tutoring program.

### Daily lunch meals for the kids

These smiles always encourage us to work even harder to provide these meals. For some of the kids this could be their last meals. With Covid19 closing more job opportunities and more people getting retrenched from work it's not easy for some of the families to provide for their kids.

### Tutoring and home work program

With a great vision of creating free thinking society and a community of well-educated young people. Our volunteers take part in helping our young people with the school work, our education system in South Africa is leaking in a way that in one class you find a number of +50 to 60 young people in one class with only one teacher for only 60 minutes per subject.

[teachonee@gmail.com](mailto:teachonee@gmail.com) [eachoneteachoneyouth@gmail.com](mailto:eachoneteachoneyouth@gmail.com)  
+27653474772 Fax:27867258753

Both these projects are playing an important role in the community especially to the young people who are beneficiaries of the projects.

**The working Team of Each One Teach one 2021 forward we go.**
