

July 28, 2022.

Dear friends:

I am pleased to tell you about the great progress we have made on the project "Empowering 25 people from Oaxaca and Hidalgo," launched in 2021, after detecting the needs of the people affected in these states especially by the pandemic and the floods during September of last year.

Our project is strengthening vulnerable populations through training with the *Taller Emprende en Línea*, and accompanying them on their path towards the development of a decent life through the generation of self-employment.

From June 20 to July 22, 2022, we gathered the second group of 22 beneficiaries. Thanks to donations from a Mexican foundation that decided to join the project, 18 of these people were trained. We were able to integrate the remaining 4 participants into the training thanks to the contributions you have given us through this GlobalGiving platform, which have been of great help to start the activities of this project.

We invite you to continue contributing and we are compromised to keep seeking for more people, companies, and organizations to support the project and achieve the goal of training a total of 25, from which we have already trained 11 thanks to the contributions gathered through GlobalGiving.

With your contribution, in this second group we managed to support:

Name	Business	State
Divina Felipa	Painted Textiles	Oaxaca
Olga Mariana	Stationary	Oaxaca
Paula	Jewelry	Oaxaca
Guadalupe	Alebrijes	Oaxaca

We thank all of you who have joined this cause and invite you to continue by our side and let know others about this project, to positively impact the lives of more people who want to achieve a dignified and productive life.

Sincerely,

Patricia L.
