

March 31, 2022.

Dear friends:

I am happy to share with you that we have made progress on the project "Empowering 25 people from Oaxaca and Hidalgo," which we launched in 2021, after detecting the needs of the people affected in these states especially by the pandemic and the floods during September.

Our project consists of strengthening vulnerable populations through training with the *Taller Emprende en Línea* to accompany them on their path towards the development of a decent life through the generation of self-employment.

From January 31 to February 28, 2022, we gathered the first group of 29 beneficiaries. Thanks to donations from two Mexican foundations that decided to join the project, 22 of these people were trained. We managed to integrate the remaining 7 participants into the project thanks to the contributions you have given us through this GlobalGiving platform, which have been of great help to start the activities of this project.

If you are reading this, we invite you to continue contributing. We will continue to seek the support of more people, companies, and organizations to achieve the goal of training a total of 25, thanks to the contributions gathered through GlobalGiving.

With your contribution, we have so far managed to support:

Name	Business	State
Ángel	Pharmacy	Hidalgo
Brenda	Coffee shop	Hidalgo
Gabriela	Edible Mushrooms	Hidalgo
Génesis	Beauty shop	Hidalgo
Dulce	Snacks for people with diabetes	Oaxaca
Luz	Print Center	Oaxaca
Sandra	Center for Training in Labor Competencies	Oaxaca

We thank all those who have joined this cause so far and invite them to continue by our side to positively impact the lives of more people who want to achieve a dignified and productive life.

Sincerely,

Patricia Larios
