Project Title: COVID-19 Safety and Relief Response in Nepal

Project Summary

According to the recent report, the COVID-19 pandemic will push 96 million people into extreme poverty by 2021, 47 million of whom are women and girls. The essential food items and Health Kits will be great support for poor and marginalized people, particularly children and young women of the targeted districts. These people are largely neglected and have affected by the COVID-19 related treatment, care and food insufficiency. This campaign can help provide essential food; and basic COVID safety, health and hygiene materials along with sanitary products like face masks, hand washing soap and sanitizers.

What is the problem?

Coronavirus disease (COVID-19) pandemic second waves with new variant is affecting Nepal. As a consequence of the open borders to India and only limited access in vaccination against COVID-19 and less precaution practices, it has been spreading every corner with painful health conditions towards to terrible lifestyle. Until the 80% population access in vaccination against COVID-19, a risk for spreading pandemic disease is exist nationwide.

Infection has forced them to stay at home with no income and means to receive basic treatment. It also affected in massive job losses, shrinking of economies and loss of livelihoods. Economic insecurity is not just jobs, and income loss today. It has a snowball effect on the lives of women and girls for years to come. Impacts on education and employment have long lasting consequences that, if unaddressed, will reverse hard-won gains in gender equality.

How will this project solve the problem?

Through the Hygiene Kits and essential food support for the people suffering from COVID-19, can get immediate relief, promote healthy practice, recover from the infection and become COVID-19 negative as early as possible. The essential food and hygiene products like masks, soap and sanitizers will make a lot of difference and make no worries while in isolation or in lockdown for the marginalized people of the districts.

Potential Long-Term Impact

This project will save many poor families from food shortage as well as help them to recover from the COVID-19 pandemic and get back to leading a normal life. We will be able save them from falling into life-threatening poverty and explore possibilities of livelihood.

Donation Options:

Option-1: Buy COVID Safety Packs-1 by \$10

Face Masks (25 Pieces), Hand Wash Soap (3), Towel Small (1)

Option-2: Buy COVID Safety Packs-1 by \$25

Face Masks (50 Pieces), Sanitizer (500 ML), Hand Wash Soap (3), Towel Small (1), Kit Bag (1)

Option-3: Buy COVID Safety and Hygiene Pack-2 by \$50

Face Masks (100 Pieces), Sanitizer (1000 ML), Hand Wash Soap (12 Pieces), Bathing Towel (1), Kitbag (1)

Option-4: Buy Relief Food Pack-3 by \$100

Rice (50kg), Lentil (5kg), Cooking Oil (2 liter), Iodine Salt (2kg), Beans (2kg), Potato (5kg)

Project Location: JWAS working municipalities of four districts (Mahottari, Dhanusha, Siraha & Saptari) of Province#2, Nepal
