

To the generous donors of the New Flooring for the VICM campaign,

We are pleased to report that your charitable contributions helped us purchase 14 cases of vinyl plank flooring. Volunteers and staff have installed the approximately 350 square feet of planks and families are already enjoying the areas of the museum that have new safer flooring!

Kids regularly kick up the existing carpet tiles still present in much of the museum. Further, the old, broken, and uneven tile underneath the carpet is not acceptable in such a high traffic environment. Vinyl plank flooring throughout the museum will give families a safer place to play and make cleaning and maintaining a healthy learning environment an attainable goal for museum staff.

This Global Giving campaign is ongoing as we aim to cover the remaining 1,250 square feet of museum floor that requires this safety upgrade.

Thank you for helping the Virgin Islands Children's Museum to improve the safety of the museum while beautifying the space. Your contributions have given us encouragement and the funds necessary to keep this effort moving forward.

Sincerely,

The VICM Team
