

AMAZÔNIA DIGITAL

4 QUALITY EDUCATION

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

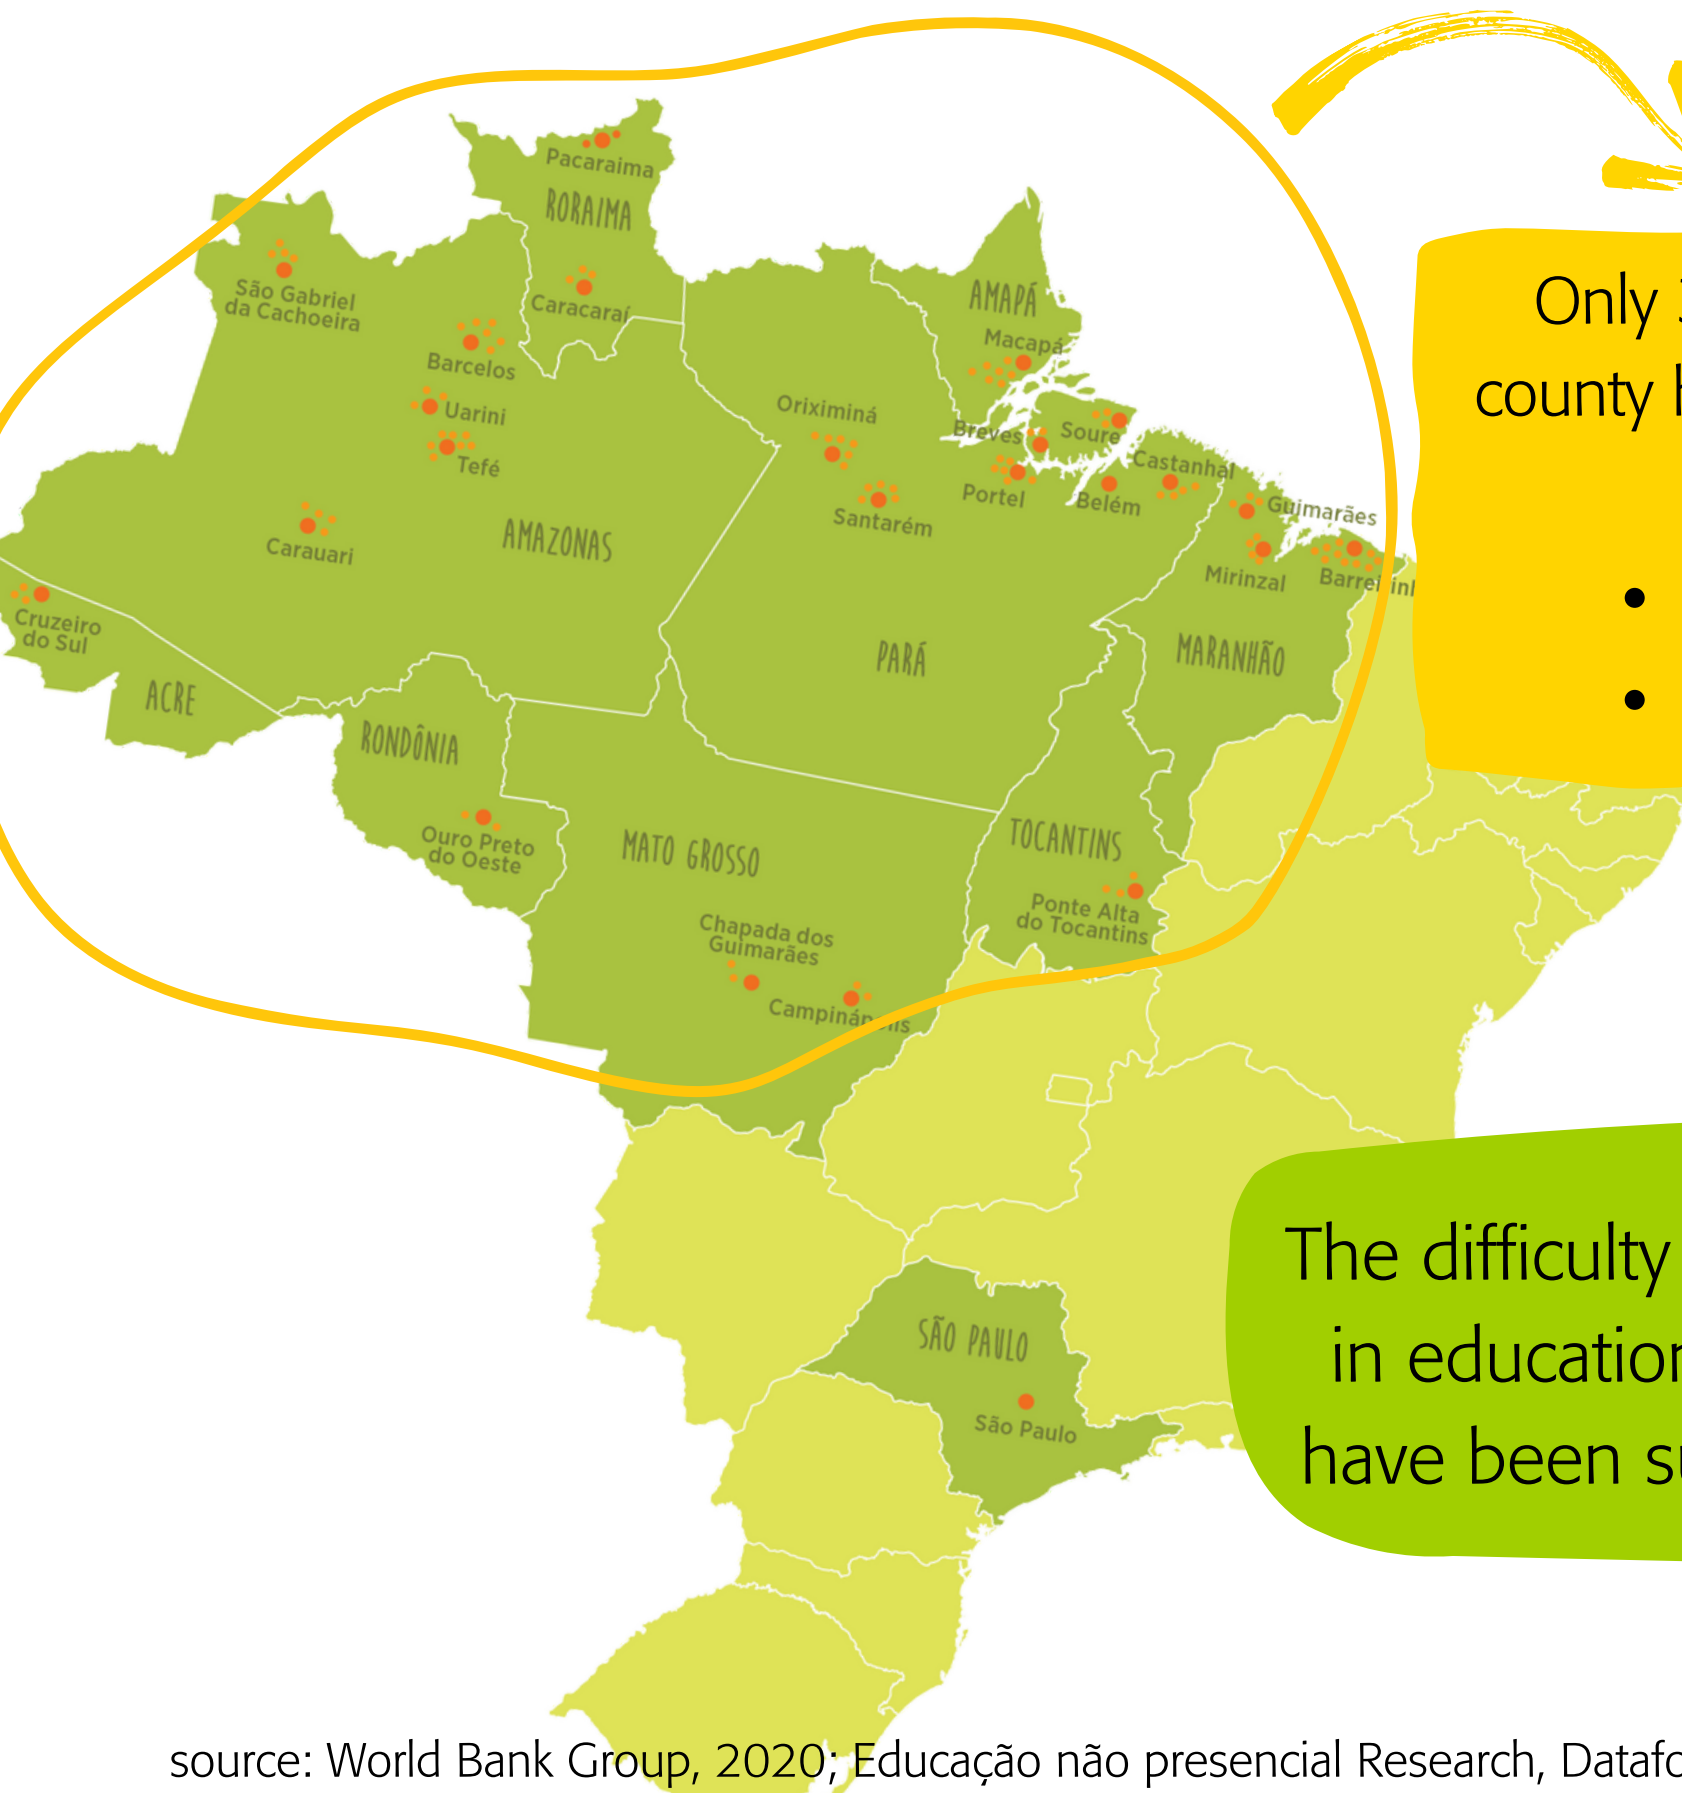

11 SUSTAINABLE CITIES AND COMMUNITIES

VAGA LUME
20 ANOS

CONTEXT

Only 38% of the cities in the North of the county have access to broadband internet, the lowest index in Brazil:

- 70% South
- 65% Southeast
- 56% Northeast
- 58% Midwest

"Lack of Internet access is one of the main reasons for not doing activities at home"

The difficulty of accessing the internet intensifies inequalities in education. In 2020, in-person classes in public schools have been suspended and return predictions still uncertain.

THE PROJECT

The main objective of this project is to expand internet access in the Amazon, as a way to expand access to reading and, consequently, its positive impact on education and the empowerment of local rural communities.

OBJECTIVES

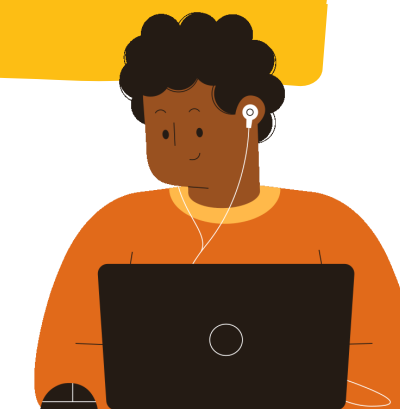

- 1 Enable internet access in 2 communities with Vaga Lume libraries
- 2 Increase the number of readers in communities
- 3 Encourage access to new technologies related to reading and education

INVESTMENT

Total project cost: US\$ 77.100,00

Already raised: US\$ 53.225,00

THE FIRST TWO COMMUNITIES

TEFÉ - AM

NOSSA SENHORA DO PERPÉTUO SOCORRO

- Location: Solimões River
- Number of Families: 85
- Number of residents: 450
- Vaga Lume Profile: Library with own building

SANTO ISIDORO

- Location: Solimões River
- Number of Families: 87
- Number of residents: 391
- Vaga Lume Profile: Library with own building
