THE MOYO FOUNDATION

EMPOWER COMMUNITIES THROUGH HEALTHCARE AND EDUCATION

PROJECT PLAN

THE MOYO FOUNDATION

Moyo is a volunteer-run organization. All contributions go directly to projects and programs -- both with minimal operation expenses. We're a grassroots organization delivering help where it's needed most.

Moyo's projects are focused on Education, Community Healthcare, Women's Health and Empowerment, and Environmental Stewardship.

PROJECT SUMMARY

Moyo believes education and healthcare play key roles in fostering sustainable development and women's empowerment.

Moyo will support pastoralist Samburu and Pokot communities in Northwest Kenya by:

- Securing sponsorships (scholarships) for students at the primary and secondary levels
- Bringing our outreach clinics to remote areas

These objectives drive our mission to shape a brighter future for those in dire need of help in Kenya and in our global community.

PROJECT OVERVIEW

The North-West corner of Laikipia is underdeveloped and lacks stable income streams for many pastoralist households.

Few healthcare facilities means a high rate of unnecessary and untreated illnesses, uncurbed transmission of viral infections, and an absence of education on general hygiene and health. Approximately 85% of the community does not have access to basic healthcare.

Additionally, few people attend or complete school. Fifty-five percent of boys do not finish primary school and instead turn to herding sheep, cattle, or goats due to a lack of financial support.

Often married off as teens, 70% of girls do not finish primary school, and 45% of girls become pregnant as teenagers.

These statistics illustrate the extreme need to support both the educational and healthcare sectors.

PROJECT GOALS AND OBJECTIVES

This empowerment plan takes a two-pronged approach by addressing education and healthcare.

Education

By providing scholarships for tuition and board, Moyo enables more children to attend school. In-kind support, such as books and school supplies, provide much-needed resources to local schools. Even a basic education can change a child's life trajectory for the better.

Healthcare

Healthcare Outreach Clinics provide essential services to many who would otherwise not have access to them. On top of medical services and menstrual product distribution, our outreach clinics provide education about reproductive health, family planning, and menstrual health. With these tools, Moyo helps disuade child marriage and FGM (Female Genital Mutilation).

PROJECT BUDGET AND TIMELINE

The total budget needed for a successful project is $38,115 USD spread over two years.

Year 1	Cost per Unit	Quantity	Total Cost (USD)
Nurse salary	600	12	7,200
Primary School Fund	80	20	1,600
Secondary School Fund	275	10	2,750
Outreach	300	12	3,600
School In Kind Support	500	2	1,000
Reusable Pads	1	200	2,000
Total			18,150
Year 2	**Cost per Unit**	**Quantity**	**Total Cost**
Nurse salary	600	12	7,200
Primary School Fund	80	20	1,600
Secondary School Fund	275	10	2,750
Outreach	300	12	3,600
School In Kind Support	500	2	1,000
Reusable Pads	1	200	2,000
Total			18,150
Grand Total			36,300
Miscellaneous and incidentals 5%			1,815
Final Total			$**38,115**
