About Us

Alternative Indigenous Development Foundation Inc. or AID Foundation is a non-government organization based in Bacolod City, Negros Occidental, Philippines that aims to tackle the problem of rural poverty through social enterprise by designing, fabricating, and promoting environment-friendly technologies which are accessible and income augmenting for the poor.

Since it was founded in 1992 by CEO and Co-Founder **Auke Idzenga**, a Dutch national with a Filipino heart and compassion for the poor, AID Foundation has consistently reached its missions:

1. **Dedication to excellence in the development and promotion of appropriate technologies and sustainable development;**
2. **Commitment to effectiveness and efficiency in development management;**
3. **Commitment to empowered communities, gender equity and cultural diversity.**

AID Foundation's flagship technology, hydraulic ram pump, have already served more than 280,000 people in communities with more than 580 systems installed all over the country.

With the expertise and skills of fabricating and innovating technologies, AID Foundation extended its services to the poor by creating the essential oil program. It had helped AID Foundation's partner communities diverse their source of income. Through the foundation's effort, the essential oil products of the community have reached nationwide market.

The foundation also took a giant step to directly protect the environment by innovating an open source plastic shredder and extruder to help fight plastic pollution. AID Foundation envisions a society where technology systems exist in harmony with nature and serves as foundation of growth and sustainable development where people share and live in abundance and happiness and where there is justice, freedom, and equality.

Products

Frequently Asked Questions

HOW CAN AVAIL OF YOUR TECHNOLOGIES?

a.To avail of our technologies, you can contact us through our contact details found at the back.

DO YOU HAVE OTHER BRANCHES?

a.No. We are solely based in Bacolod City, Negros Occidental.

CAN YOU DELIVER TECHNOLOGIES/PRODUCTS OUTSIDE BACOLOD/NEGROS?

a.Yes! Corresponding shipping fees will be charged however.

HOW CAN WE KNOW WHAT SIZE OF AIDFI RAM PUMP BEST SUITS OUR WATER SOURCE?

a. Different sizes have different flowrate requirements. We strongly suggest having your site surveyed first to know what size and how many AIDFI Hydraulic Ram pumps work best for your site.

WHAT TYPE OF WATER SOURCES THE AIDFI RAM PUMP BEST WORKS?

a.AIDFI Ram Pump best works on water sources like springs, streams (creek), and rivers that are free flowing.

CAN WE VISIT AIDFI WORKSHOP?

a.Yes! You can visit our office/workshop anytime and see our technologies being made.

HOW CAN WE PARTNER WITH AIDFI?

a.For partnership and collaboration, you can email us at contactus@aidfi.org.
