HEALTH DEVELOPMENT INITIATIVE

December 2023

HDI's work in Cyaruzine Village in 2023

- SHARE facilitators from HDI conducted 10 class sessions with 15 Cyaruzine students from January 7 to March 11.
- Community dialogue with community mothers on teenage pregnancy in February 2023.
- Since April, we have provided 8,000 condoms to the community. This was done with the aim of preventing sexually transmitted infections.
- In August, we conducted a village headcount capturing key indicators like demographic data, health insurance status, infant mortality, child registration, and employment status.
- Supported the construction of toilets in the village by providing roofing materials.
- With the help of 20 key actors from the community, we are sensitizing the community to pay for their health insurance, and identifying the most vulnerable that might need support in this endeavor. 25 families confirmed they have health insurance.
- Claude has been working closely with Dr. Kagaba on Cyaruzine land ownership,
- Provided sanitation pads
- Supported bean cultivation with distribution of 346kg of chicken manure
- Supported young electronics technician with testing equipment and repair parts
- Supported a young man's delivery business with a freight bicycle.
- Offered weaving lessons for woman entrepreneurs

In April 2023, HDI paid fees for 5 people for hairdressing classes, and 5 people for sewing classes, and in August for driving classes

We will soon kick off awareness activities focusing on hygiene and sanitation, including helping the community appoint people responsible for regular monitoring of the hygiene of the toilets.
