2020 Annual Report

Mission Statement

Our current mission is to feed, clothe, educate, house, and provide medicine for the orphans under the care of Pastor John in Kabuoch Kawuor Village, Kenya.. Our long-term goal is to build a dormitory to put all the children under one roof with running water.

Accomplishments 2020

In 2020 we fed and clothed 79 children with our donations. We bought masks during the covid crisis and some sports equipment. One child got malaria and was taken to the hospital. The rest remained healthy. We are a new company and hope to buy mattresses for the children to sleep on sometime next year.

Sponsorship

In 2020 we began a sponsorship program and sent out the following press release.

“Please consider sponsoring a child. Your donation will go for food, clothes, or anything else you desire. You can donate monthly or on special occasions like holidays. Your donation does not go in a communal pot. It goes directly to the child, and you will get a picture of what was purchased. If you decide to pay school fees they will write you letters. We will also send progress reports for those who request one.”

Five children received sponsors.
