# Changing HIV Life

Making Hope and Transcendentness of life in people who live  
with HIV.

We learned about our body in a visit  
og Papalote Children's Museum

Our House is an important place where we receive soft skills and better life conditions.

In these pictures you can see a group of volunteers that painted our home.

## Our academic achievements

In August we started a new grade in a new school, one of us began in secondary school.

¡THANKYOU!

With your contributions we have better Life and opportunities
