We deeply appreciate your generous support. The need here is indeed great, like an ocean, and every single drop of help that comes our way makes a significant difference. Your contributions, no matter the size, bring relief and hope to our community. Thank you for your continued support and kindness.

New university student: Yutana

Yutana entered the university in June this year (2024). He made the entire Baanunrak community proud of his achievement by constantly promoting activities, and leading and inspiring the younger children to be committed and active in their daily duties and studies.

Activities

New university student Rochana

Rocana made everyone in our community extremely proud and happy with her achievement. She entered the university on the 1st of July 2024. She was an inspiration to everyone in the home, caring for every child and choosing to study psychology so that she can return and help the children of the younger generation. She brought beauty and art to every expression of Baan Unrak.

A special celebration for the teacher: Children offering flowers to express their heartfelt gratitude

A Heartfelt Thank You from the Baan Unrak Team and Children

Thanks to the generous help we receive, we are able to send our children to school. Baan Unrak currently has 135 children enrolled in various levels of education, ranging from kindergarten to university, including special education for refugees. A significant indicator of the success of our education endeavor is the increasing number of children who return to teach and care for the younger ones. This cycle of learning and giving back is a testament to the strength and effectiveness of our community. We are incredibly indebted to all the donors who have contributed to this program. Your support has made a profound difference in the lives of these children, offering them opportunities for growth and a brighter future. Thank you so much for your continued generosity and belief in our mission.
