

GLOBAL GIVING REPORT

August 2024 to October 2024

3 months report

Number of students

- Babies 7
- Kindergarten 17
- Elementary 63
- Junior High school 15
- High school 19
- Vocational 1
- University 9
- Adult school 7

Total children 138

We received from global giving

August 27 & October 29

52,096.36 THB

\$ 1,515.55

We are deeply appreciative for your thoughtful contributions. Our obstacles may be huge, but each act of compassion sends a ripple of hope to our children. Your contributions are a beacon of light, assisting us in nurturing and empowering them for a better future.

Thank you for your continuous support and compassion.

With Deep Appreciation from the Baan Unrak Community

With the generous support we receive, we can provide education to children across all levels, from kindergarten to university, as well as specialized programs for Myanmar refugees. Many of these refugees are over the standard age for primary school, making traditional education inaccessible. We again started a homeschooling program at Baan Unrak to bridge this gap. This program benefits the children in our care and the others in the local community who lack access to education.

Through this effort, young children learn academics and practical skills through crafts and vocational training at home. In addition, we provide English language programs for children who want to increase their knowledge.

This comprehensive strategy ensures that every child, regardless of origin or circumstance, has a chance for a better future. Your contributions are the foundation of these life-changing programs. Thank you for believing in our purpose and helping us provide opportunity for these deserving children.
