Emergency Fund for Ukraine

Progress report | July 2022

Dăruiește  Viață®

The war has started!

"It's unfair that millions of Ukrainians are forced to leave their homes, their loved ones, their country. I feel so much pain. I talk to Misha every day. I miss him."

- Anna

The ones who stayed behind.

"If the people who started this war knew love as we do, they probably wouldn't have started it. My Anna is gone."

– Misha

Project needs

- On the 2nd of February 2022, Russia invaded Ukraine. Millions of Ukrainians have to face a two-sided war: the war outside, with real soldiers, bombs and air raids, and the war with a disease. The wounded. The chronically ill. Their families. The medical staff.
- The medical resources were less and less, while the requests for help were increasing every day.
- A month after the war began, the World Health Organization identified 64 hospitals that had been attacked, including children's hospitals and maternities.

The Emergency Fund for Ukraine

- There are those who leave. But there are also those who stay. For those who stay, both patients and wounded, we have created the Emergency Fund for Ukraine.
- We have identified the needs in the hospitals (necessity lists) in order to offer efficient support.
- We have collaborated with Ukrainian volunteers and signed partnerships with the Ukrainian local authorities, for collection and distribution.
- We have raised funds from our donors and sponsors in order to purchase medicine, supplies and medical devices and transport them to Ukraine.

Project timeline

Transport #1

1 truck, 22 pallets, 3 tonnes

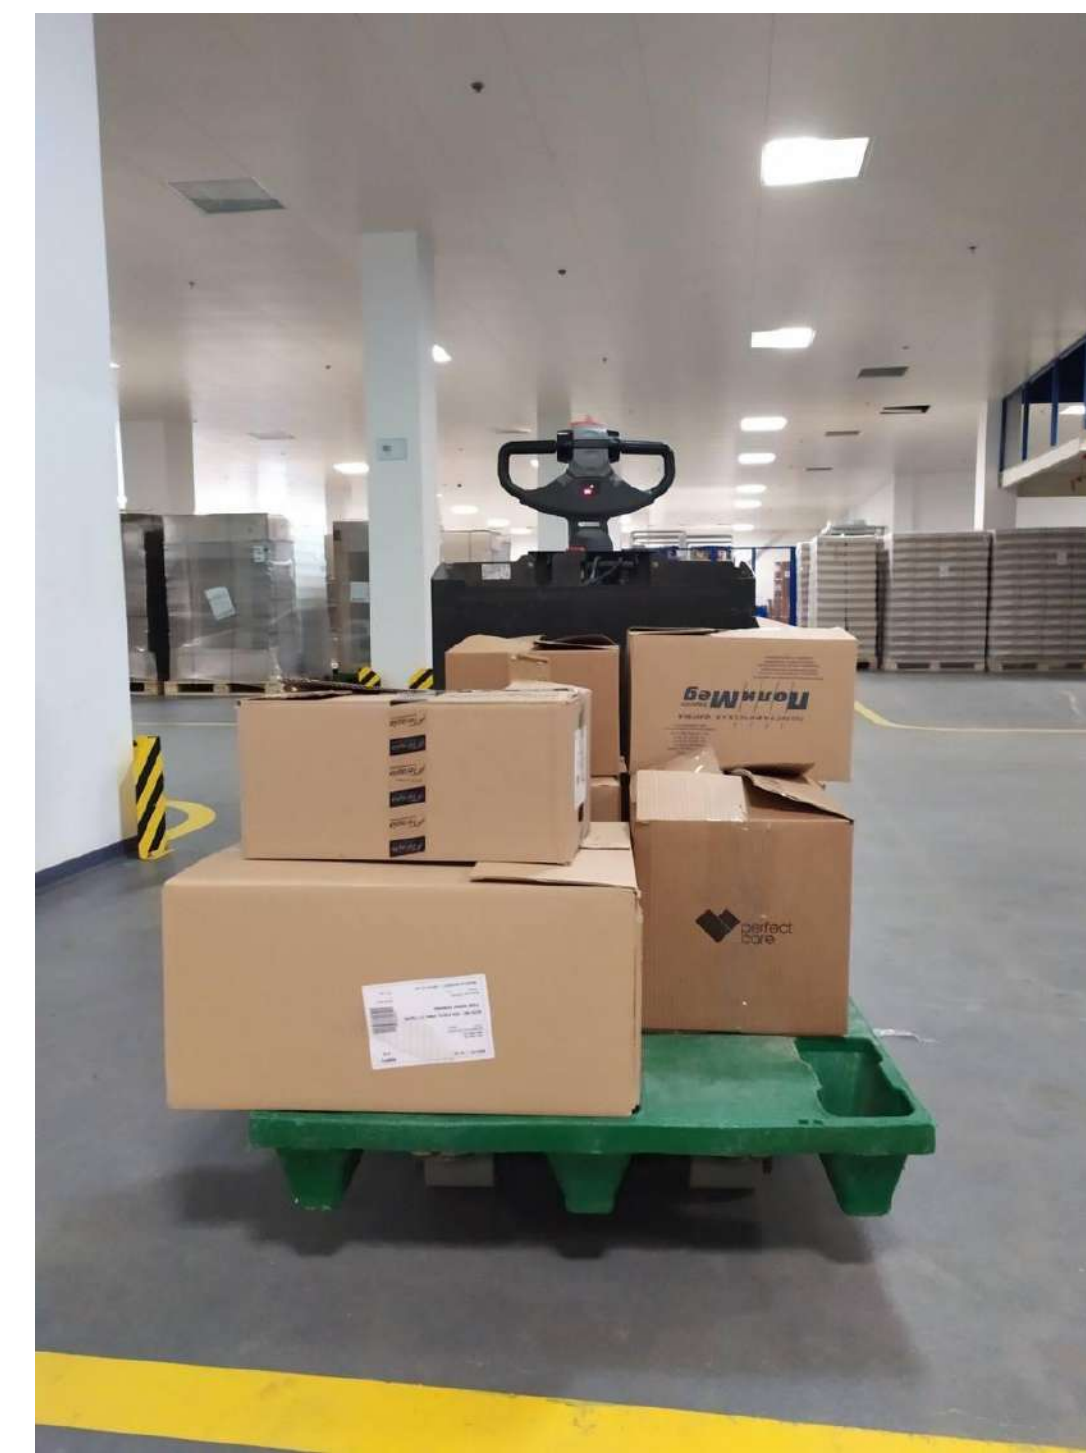

To: The Health Department of Chernivtsi Local Council

When: March 4, 2022

What we sent:

- Medical supplies: +270,000 pcs. (syringes, needles, medical masks, compresses)
- Painkillers: +14,000 pcs. (capsules, vials, powders for injectable solutions)

- Antidiabetics: 298 pcs.
- Antihistamines: 225 pcs.
- Antibiotics: 159 pcs.
- Wheelchairs: 20 pcs.

Where they ended up: Kharkiv, Kyiv and other areas with urgent medical needs.

Where the donations ended up

Together, we have
invested
approx. €740,000
in Ukraine

Approx. € 537,000 from companies
(funds and products)

Approx. € 203,000 from donors
(online donations and wire transfers)

How your involvement helped

We have supported
Ukrainian hospitals with:

- 3 transports
- 5 trucks
- 83 pallets
- 14 tonnes

of medical supplies

People. Here and there

Natalia joined the **Dăruiește Viață** team as a volunteer after leaving Kyiv for fear of the war.

Every day, **Natalia** came to the office, acted as our translator and connected us to the Ukrainian authorities, facilitating the transports organized by Dăruiește Viață.

Anna, her daughter, and **Misha**, her boyfriend who stayed in Ukraine, shared what being apart because of the war has meant for them. Read the whole story [here](#).

"We never give up. We fight for freedom, democracy and human rights. Anna has a lot of plans for the future and they all have something to do with living her new life in an independent Ukraine. Being Ukrainian is her superpower. Fighting for freedom is in our blood."

- Natalia

Partners and supporters

Our transports to Ukraine were made possible by some extraordinary people joining forces.

185 companies

1,367 donors in the fundraising campaign

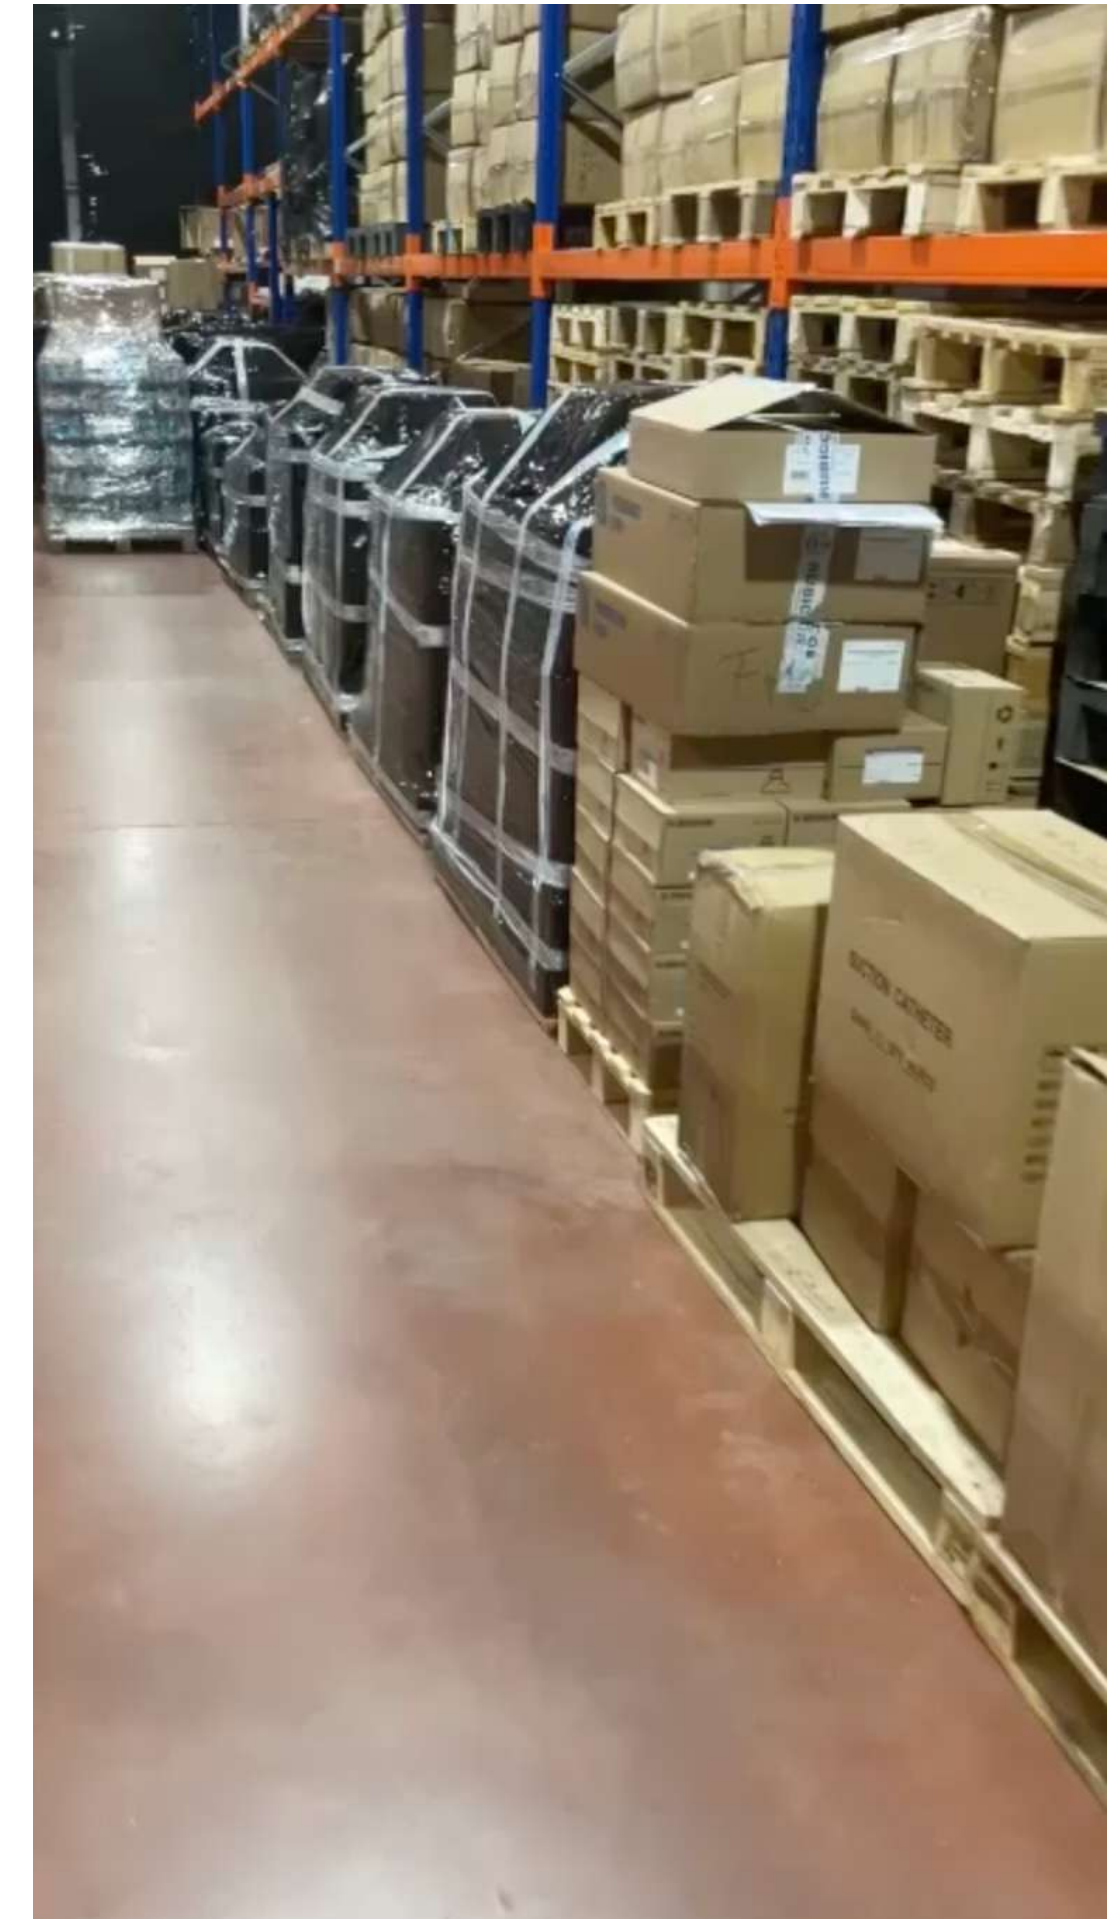

205 donors via wire transfer

28 donors from other campaigns

7 platforms (Global Giving, The Savitri Waney Charitable Trust, Charity - Customertimes Corp., RTQ- Refuse to Quit, Your Cause, Benevity etc.)

Special thanks to:

- **ADEM** for organizing the first transport,
- **Pharma Vision** (through Mr. Adrian Cristea) for the logistic support,
- **Siret and Halmeu Customs** (through their employees) for facilitating the formalities,
- **The RCS customs commissioning office** (through Mr. Alexandru Turlic) for the good transportation of the pallets from Romania to Ukraine.

CU GÂNDUL LA CEI CARE RĂMÂN
Sunt cei care pleacă. Dar sunt și cei care rămân. Cum pot lupta pentru viață în spitale sau acolo unde sunt izolați din cauza conflictului? Mai au acces la tratamentul de care depinde viața lor? Ce resurse au? Cât le vor ajunge? Care sunt șansele lor?

CE FACE DĂRUIESTE VIAȚĂ?
Pentru cei care au rămas în Ucraina, pacienți, familiile lor, răniți, cadrele medicale, căutăm resurse, medicamente și echipamente medicale pentru a-i ajuta să lupte pentru... [See more](#)

Al treilea transport a ajuns în Ucraina. Două camioane cu 24 de paleți. Medicamente, consumabile și instrumente medicale pentru cei care au rămas: pacienți și răniți. Viktor Yatsky, medic și consilier al primarului din Kyiv, ne-a ajutat cu distribuția donărilor acolo unde este nevoie cea mai mare. [Link video în comentarii](#)

„Îmi doresc să îmbătrânim împreună și să murim în somn, ținându-ne de mână, nu sfâșiați de o rachetă.” Anna și Misha s-au despărțit din cauza războiului. La 18 ani, Anna a căutat refugiul în România. Misha are 19 ani și se află în mijlocul exploziilor. Ce putem face pentru cei care rămân? ❤️🙏

Cu gândul la cei care rămân în Ucraina

Zeci de mii de ucrainieni au de înfruntat un dublu război: războiul de afară, cu soldați reali, raiduri aeriene și războiul cu boala. Bolnavii cronici care ajung în spitale cu diferite afecțiuni...
