

**Supports children in rural area in discovering
who they are and who they want to be**

"The example educates, inspires and motivates"

Mundo de Talentos

Mundo de Talentos offers vocational training to curious and motivated public-school going children in San Cristóbal de Las Casas in the South of Mexico. During every class, students get to know passionate professionals (volunteers) and their diverse areas of expertise. They meet architects, journalists, doctors, artists, technicians, biologists, scientists and craftsmen. Excursions are an important part of the classes. Through these encounters children broaden their perspectives, they discover their talents, they increase their self esteem and they strengthen their connectedness with society.

Mundo de Talentos in rural area

In 2022 Mundo de Talentos will expand its vocational guidance activities to rural area in the state of Chiapas. We will work with first- and second-year high school students. Young people of this age have already decided to continue to study. An excellent time to keep on motivating them through a process of vocational guidance.

Pilot project

In February 2022 a pilot will take place in the village Teopisca, 30 minutes from San Cristóbal de Las Casas. The project, with a duration of 4 months, will officially start with 20 high school students. After this initial phase, we will evaluate the process and implement necessary adjustments to start the first official generation with 40 students in September 2022.

We are convinced that role models inspire. Therefore, we will invite passionate professionals who are originally from rural areas. Their life experiences will motivate students to continue studying, to choose a career that suits them and to get a better understanding of how to orient themselves on their future possibilities.

Funding

To make this pilot a success, we are looking for financial support. The budget of 130,000 pesos (6,400 USD / 5,500 EUR) includes expenses for material, transportation, lunch and personnel.

In order to be able to carry out the project with 40 students for one year, from September 2022, an amount of 280,000 pesos (13,000 USD / 12,000 EUR) is needed.

Alberto López, guest teacher during the module Fashion. Alberto is from Aldama in the Highlands of Chiapas and is textile designer and owner of the brand Kuxul Pok.
