

For bamyar Foundation

Hello, I'm ~~XXXXXXXXXX~~ one student of ~~XXXXXXXXXX~~. I'm thankful from bamyar foundation that they help us to study and continue our lessons up to grade six. You give us motivation to continue our lessons and achieve to those goals that we want to achieve them. We don't have the money for studying in private courses, but now with your supports we can study our lessons free.

And about the teachers, they are perfect and wonderful. They are active serious and also friendly. They are very energetic for teaching, when they are in class they are motivational. When they come in class with lots of motivation we also get motivation for studying our lessons. So with your supports and teachers motivation we get motivation to continue our lessons and arrive to our goals.

When we didn't know that in the future you will support us we lost our motivation and give up, but now with your support we get motivation and we stand again and continue to achieve our goals. Myself I'm in grade seven and in the past when I was in grade 4 or 5 I was so hopeless but now I got my motivation to study my lessons.

Me and my friends, we are very happy from you this course and it's teachers due to when you support us we get motivation to start again and achieve my goals and my goal is being a surgeon doctor, so I can achieve to that goal if I finish my school. So by your supports I can finish my school and make true my dreams.

At the end, I would like to suggest you to increase these kind of hidden courses, because there are lots of girls that they are at home but if you support them they can continue their lessons and be a person for their self. So I hope that you increase these kind of hidden courses and I hope you become more and more successful in way of helping the girls. Thanks again.
