

"in the name of Allah"

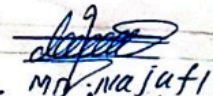

Hello:

my name is [REDACTED] The daughter of [REDACTED]
I am from a village that is located in [REDACTED] and its name is [REDACTED].
I was born in 1990 and I started my education in [REDACTED]
1998. I continued my lesson until grade six in [REDACTED]
high school. I was studying for six years at school.

I tried to improve but the government me from
improving before the Taliban came to our country I didn't
think that one day the doors of school would be closed to our
faces after this, I became disappointed and I think that lost my
motivation for learning. I thought that there was no future for Afghan
girls and that we could not have wishes or freedom.

but this course started (in 19 Jun 2023) was so happy that we
could continue our lesson I was so proud of you that we have
such good supporters. you give us hope to live and continue.

we will never forget your kindness.
