

In the name Allah

my name is [REDACTED] The daughter of [REDACTED]. I'm 13 years old and a seventh-
Grade student from [REDACTED] village in [REDACTED]. I was born on April [REDACTED] and
I started school in 2019. I studied [REDACTED] hard and completed my lessons
with grade of good, ranking second in my school.

Unfortunately, I was unable to continue my education the following year.
This situation was very painful and disappointing, and for a long time
I felt that I haven't no future. As day and weeks passed, my hope
gradually faded, and I never imagined that we can continue my
Lesson. Finally, this in 19 June 2025 this school started and continued
until December. Examinations from us to know our learning.

I'm also very thankful to our teachers who continue teaching us.

Despite all challenges, we are truly happy that this course
was created, and we sincerely appreciate every one who supports
in this hard situation.

Thank you to all our dear supporters.

Respectfully

[REDACTED]
