

DDing Dong ‘Home, PRIDE HOME’ Project

Building A LGBTQ Youth Shelter in South Korea: Organizational Study Visit Program

1. Purpose

(1) We plan to participate in the 2022 ILGA World – LGBTIQ Youth: Future Present Change section to announce the issues regarding the conditions and independence of Korean LGBTIQ youths. This is to inform the issues of Korean LGBTIQ youths and the activities of DDing Dong beyond the seas.

(2) As a part of DDing Dong alternative residential space establishment project ‘Home, PRIDE HOME’, we visit LGBTIQ institutions or shelters in Los Angeles and the Long Beach area. And we meet with the activists getting to know the process of establishment, operation methods, troubles and actual cases and check the spaces in person to utilize for future establishment planning.

(3) We hold a meeting to tell the situations and realities of LGBTIQ youths and introduce DDing Dong. In the meeting, we can introduce the issues of Korean LGBTIQ youths or hear the issues of LGBTIQ youths in U.S. or California region, doing interchange activities. After that, we explain and promote the project of establishing the shelter ‘Home, PRIDE HOME’, encouraging people to donate.

4. Expected Impacts

- We can announce the issues and realities of Korean LGBTIQ youths by participating and section presenting in ILGA World. Also, we introduce the institution DDing Dong and promote the 'Home, PRIDE HOME' project.
- By collecting diverse cases overseas for establishing a shelter, we can steadily start the establishment and operation of a shelter in Korea. And we can encourage the donations to establish that and get variable advice or suggestions on the ground.
- We can introduce DDing Dong by meeting activists in LA region and members of Korean communities. Also, we can make them know the issues of Korean LGBTIQs and advertise the project 'Home, PRIDE HOME.' By this, we lay the ground for requesting donations or promoting the campaigns by communicating online consistently.
