

November 25, 2022

Dear friends,

Since our last report in July, we have made steady progress so that more people in Mexico find alternatives to generate their income and boost their development and that of their families.

Although from April to July we managed to provide business training to three women originally from Venezuela, who keep their businesses in Mexico; this time we have managed to get eight more people to be accompanied on their path of entrepreneurship. This was possible thanks to the alliance with a social investor who for years has been committed to the cause of ProEmpleo and who gladly joined this project "Empowering 30 Latin people in Mexico."

The people who benefited this time are:

Name	Business	Birthplace
Yaneidyth	Dental services	Venezuela
Dayana	Coffee sale	Venezuela
Franklin	Production of tequeños	Venezuela
Celestine	Industrial safety	Venezuela
Antonio	Pet products	Venezuela
Fernanda	Decoration on paper	Venezuela
Mariana	Swimwear	Venezuela
Yuribeth	Gourmet Sauces	Venezuela

It is a pride to serve and accompany those who today have great dreams of getting ahead for themselves and their families. We almost reached the halfway point; we invite you to continue to reach the goal together.

Kind regards,

Patricia Larios
Executive Director
