

PROJECT

Creation of favorable environments that respond to the needs of sexual and reproductive health, with emphasis on the development of women and young people in situations of vulnerability in the State of Guárico from a rights approach.

GENERAL INFORMATION / EVOLUTION OF THE CONTEXT

For the month of June, interviews and weekly visits were carried out in the communities and pertinent assistance centers for the placement of IUDs.

In the month of July, awareness-raising began in the communities and we have started with the placement of IUDs in the different selected communities of the state, such as: Calabozo, Ortiz, Cazorla, Camaguan and Guayabal.

SUMMARY OF THE ACTION (OBJECTIVES)

For the month of July, each session was given as follows:

-8 sessions in total for the entire month of July, distributed over the 4 weeks of the month of July, on different days among the five selected municipalities.

Approximately between 23 and 26 patients were seen at each drive on Sexual and Reproductive Health in IUD placement.

Week 1: from July 04 to 08: The municipalities of Camaguan, 25 patients, Cazorla with 24 patients, Guayabal with 26 patients, were treated.

Week 2: from July 11 to 15: Ortiz with 26 patients treated.

Week 3: July 18 to 22: The communities of Camaguan with 23 patients, Cazorla with 25 patients, and Guayabal with 25 patients were treated.

Week 4: from July 25 to 29: The community of Calabozo was treated with 26 patients.

Obtaining thus, an advance of 200 patients with IUD collation.

In each talk about raising awareness in the communities of the state and deliveries of barrier contraceptives (male condoms). A total of 25 people attended for each informative talk.

The talks were distributed in 16 meetings throughout the month, and in turn in 4 sessions per week.

Week 1: from July 04 to 08: 2 talks were given in the Calabozo municipality, each of 25 people, in the Ortiz municipality 2 sessions equally and each of 25 people.

Week 2: from July 11 to 15: 2 talks were given in the community of Cazorla, each with 25 people, in the community of Guayabal 2 talks with 25 people each.

Week 3: from July 18 to 22: 2 talks were given in the community of Guayabal, each of 25 people and 2 in the community of Camaguan. Each of 25 people.

Week 4: from July 25 to 29: 2 talks were given in the municipality of Calabozo, each with 25 people, and in the community of Cazorla, 2 talks with 25 people each.

Thus giving an advance in the talks on sensitization to the communities and deliveries of barrier contraceptives (condoms) of 400 sensitized people.
