# HELP FOR HOSPITALS

## CHILDREN, CIVILIANS, WOUNDED

Innocent Ukrainians are dying and suffering every day from Russia's barbaric actions - they are ruthlessly shelling our homes, kindergartens, hospitals and even maternity wards, cynically declaring that the military is supposedly based there. Russian forces have no pity for children, pregnant women or the elderly. They have an order to kill everyone indiscriminately – this is openly stated by the captured occupants.

But despite the fear of death, Ukrainians continue to help each other. Doctors remain in their understaffed offices and work overtime. In addition to the wounded, there are also non-transportable patients in medical institutions. Doctors and medical staff are forced to live in their workplace.

**Our foundation assists the hospitals by providing them with medications, medical supplies, medical equipment, food and groceries.**
