activities.

Impact Ruwasunchis - Ruwa Seeds (2023)

- > 109 children and 36 youth participated in the project.
 - > 100 in person workshops.
- > Children from 5 to 7 years old learned the importance of values and managing their emotions.
- > Children from 8 to 10 years old increased their care for the environment and played games with recycled materials. Likewise, they learned the meaning of the 7Rs to recycle (redesign, reduce, reuse, repair, renew, recover and recycle).
- > 36 adolescents received workshops about caring for the environment, and social and emotional learning.

Impact Ruwasunchis - Ruwa Seeds (2023)

- > The children from 11 to 12 years old managed to provide daily examples of pollution and reflected, suggesting ideas on how to improve these actions. In addition, they identified the colors of the containers to recycle properly.
- > Adolescents from 13 to 16 years old reflected on global pollution and imagined a different world, applying the 3Rs. Likewise, they visited the beaches of Barranco to put into practice what they had learned by recycling garbage and selecting disposable and non-disposable items.

¡Hazla por tu
playa!

The group of adolescents participated in the beach
cleaning campaign.

¡Let's do it
all together!
