FOURTH REPORT OF PROJECT: "PROVIDING SAFE WATER AND FOOD TO 5,953 CHILDREN"

The project "Provide safe water and food to 5953 children" aims to drill boreholes and produce vegetables through agroecological practices in 11 primary schools in rural areas. This is an opportunity to allow 5,953 students to have drinking water and healthy lunches. The project's activities started on September 1st, 2022 thanks to AFDD's own funds and grants from the Paris City Hall. The funding amounts to 11,000 euros, not enough to carry out the projects in all schools.

Schools in Yombo and Sekia-Dallet villages were trained in agroecology in November 2022 and received agricultural inputs (vegetable seeds, tools and other materials).

Regarding drinking water Sekia-Dallet school received water borehole. Because of the lack of funding, the Yombo school received a water well as part of the "Modeste Mondossi Fund" created by the AFDD. Nzilla and M'Poko Bac schools received water borehole last year.

On January to July 2023, three schools (Yombo, Sekia-Dalet and Nzilla sowed 126 vegetables bord (see table below).

Donations are important to continue our project.

We need your donations

Thanks!

By Adèle Grembombo - chairwoman & Program and project Coordinator of AFDD

Table : Vegetables

Name of School	Vegetable	Number of vegetable board	area of garden bed (m²)
NZILLA	Amaranth	12	144
	okra	10	120
	Jute	7	84
	Tomato	6	72
	Cucumber	4	48
	spinach	4	48
	headed cabbage	6	72
	carrot	2	24
	eggplant	4	48
	Lettuce	6	72
Total 1		55	732
	Tetagrone	4	48

SEKIA DALLET	Amaranth	7	84
	Tomato	4	48
	Jute	4	48
	spinach	3	36
	okra	4	48
	carrot	4	48
	eggplant	2	24
	Cabbage	1	12
Cucumber	5	60	
Total 2		35	456
YOMBO	headed cabbage	5	60
	Lettuce	6	72
	Amaranth	8	96
	jute	5	60
	okra	3	36
	Tetagrone	2	24
	sorrel	3	36
	eggplant	1	12
Tomato	3	36	
Total 3		36	432
Tota 1 + 2 + 3		126	1620

Capacity building of schools on agroecology

Delivery of agricultural inputs to schools

Sekia-Dallet school water borehole

Yombo school water well

Nzilla school water borehole

M'Poko-Bac School water borehole
