

◆ SINGLE LEG AMPUTEE SPORTS CLUB (SLASC)

Designed to change the negative perception of the amputees and to foster hope and dignity, the sport of soccer has transformed these dedicated athletes from victims of war to victors.

◆ HEALTH CARE

Medical care is almost non-existent. Polio and Malaria are common. GGMUSA is currently developing clinics in 3 major centers.

◆ FARMING

Provides families with seeds and farming tools giving them the opportunity to grow their own food.

◆ MOBILITY AIDS

Wheelchairs, crutches and prosthetics provide mobility and less dependence upon others.

◆ WOMEN'S MINISTRY

Counseling, trauma therapy and spiritual growth highlights this unique program for women amputees struggling to raise a family.

◆ INFRASTRUCTURE

Construction of wells to improve health and sanitation as lack of clean water is a major public health problem.
