

ALL WITH LION: WE PROMOTE LITERARY CULTURE

*Since March, we have been addressing the importance of education, socio-emotional rights and skills and care for the environment, fundamental pillars of **Fundación León's** work.*

Different literary workshops were implemented in 3 schools: **Amado Juri, Justiniano Frias** and **N° 148**. A total of 1 7 0 children from 7 to 1 1 years old attended. With these activities the following activities were provided:

READING COMPREHENSION

Analysis and reflection of literary texts. Promotion of critical thinking

CREATIVE WRITING

The aim was to use games and "fun" proposals to stimulate writing and imagination so that they could express their ideas.

ORAL EXPRESSION

Reading aloud and oral presentations of their own written work. We encourage and provide tools for the expression of their ideas and opinions.

SOCIAL SKILLS

Team, individual and peer work that enables cooperation, solidarity and empathy within the classroom. We address the importance of self-esteem, self-knowledge and self-acceptance.

CONTRIBUTIONS FROM NEUROSCIENCE

Knowing our brains in order to plan and propose activities according to the needs and tastes of the children.
