

We help 3,000 families in north-western Argentina.

During 2023 we will help people in vulnerable situations with early childhood education programmes, secondary school scholarships, training, job training and microcredits.

We stand out by providing support to families to ensure the positive impact and success of our programmes.

Some of our most outstanding actions:

- **Training and job training for 71 young people with disabilities.**
- **Delivery of 394 orthopaedic elements.**
- **We supported 400 adolescents with secondary school scholarships.**
- **We delivered books and didactic materials to the families of 90 children from 2 to 5 years old.**
- **We provided literary workshops in 3 rural primary schools.**
- **We carried out workshops to prevent cognitive deterioration in 200 elderly people.**

These and many more actions were possible thanks to your help, please continue to support us to reach more people.
