In order to contribute to the most vulnerable populations, the NGO CAV has proposed to implement the support project for the construction of a health center in Kpangalam-Château, a suburb of the city from Sokodé in Togo.

This project falls within the framework of Result 2 of the 2021-2025 strategic plan, relating to the reduction of the rate of morbidity and maternal and infant mortality by the end of 2025 with a total cost of Sixty million four hundred and forty five thousand three hundred and sixty ten (60,445,370) CFA francs or ninety-two thousand eight hundred and fifty (92,850) US dollars.

In November 2022, this project was submitted for consideration by GlobalGiving with a view to raising funds for its implementation.

This report summarizes all possible activities carried out from March 15 to July 13, 2023.

During this period, fundraising actions were carried out:

Since May 9, 2023, the project has received funding of \$140, including \$130 from Mr. A.A. MG and \$10 from Mrs. T. Le.

As of July 12, 2023, the total funding for the project is 150 US dollars with that of the 10 dollars funded in February 2023.

Fundraising therefore continues with the permission of GlobalGiving.

Done in Sokodé, July 11, 2023.
