

2nd Activity and Financial Report for the TIGOUNG NONMA Christmas Fund Project July 2023

I Introduction

In July TN received a transfer of funds from GlobalGiving for its three (3) projects which are: Headquarters Project, Member's Health Project and Vulnerable Members Individual Support Project for Christmas. This report is solely about the project to individually support its vulnerable members for Christmas. Given that over time, the circumstances of some members have improved and that the 2nd and last transfer of funds received is less constitutive, we have prioritized the individual care of the most vulnerable members. The report will cover the activities carried out and its financial update.

II. Activities

On July 14, 2023, the committee met to prepare and schedule the meeting with the beneficiaries. On July 26 convened all the most vulnerable members involved in the project were convened in order to give them funds. Of the 48 beneficiary members of the project, the total amount received was entirely used to individually support the 22 beneficiaries recognized as the most vulnerable to enable them to pay for basic necessities to celebrate Christmas in a delayed way. All the other members agreed that they should be supported.

III Results achieved

The 22 most vulnerable members were financially supported to allow them to pay for Christmas products in a delayed manner. The overall objective of the project was achieved.

IV. Financial Report for the Activity

IV.1 Transfer received for the three projects

V Difficulties encountered

We apologise for the delay in presenting this report

VI Conclusion :

It is the solidarity of the members that have made it possible to give individual financial support to the most vulnerable members

At the end of this project with this latest funding, all members, especially the beneficiaries, would like me to thank all our partners who have enabled to achieve the desired goal.

The President and Coordinator of TIGOUNG NONMA
