INTRODUCTION

A school for the deaf and hard of hearing was created in Sokodé in 2006 under the name VIVENDA. It had 15 deaf and hard of hearing children including 7 girls and 8 boys and only one (1) teacher.

The school was entirely financed by the financial contribution of parents and certain NGOs such as "CAMPAIGN OF MEN" based in Kpalimé .

Due to lack of funding, VIVENDA School was closed during the 2019-2020 school year.

Following the closure, deaf and hard-of-hearing children attending the school found themselves at home, without any support from the education system. This further complicated the lives of both parents and children.

This is how a woman from Sokodé, a seamstress by profession, offered to take over the education of these children in need, whose numbers are growing. The Sokodé School for Deaf and Hard of Hearing Children, under the name KAMADAR (ESMK-Sokodé), was thus created for the 2020-2021 school year.

Using her own funds, this woman then rented a six-bedroom house with a courtyard and a playground to house ESMK-Sokodé. She called on the teacher from the former VIVENDA school to teach the students.

Aware of the financial difficulties faced by parents in general and those of deaf and hard of hearing children in particular, and taking into account the wish of almost all of these parents to see their children educated and trained in a specialized school, ESMK-Sokodé has opted not to ask for any contribution from parents already affected, in order to encourage the enrollment of their children. School uniforms, supplies and snacks are fully covered by the school.

Presented to the administrative, religious and customary authorities of the central region, as well as to the population through communications and meetings, the initiative to open ESMK-Sokodé was welcomed and congratulated by all stakeholders, as the need for such a school is real.

ESMK-Sokodé, the only private specialist school that supports the education of deaf and hard of hearing children, aims to become a benchmark school that could one day benefit from the support of the Togolese state through the assignment of specialist teachers.

It was in the search for solutions that the promoter of this school met the NGO CAV to request the support of these financial partners.

This project therefore falls within the framework of result 3 of the 2021 - 2025 strategic plan of the NGO CAV, entitled: "The education of young girls in rural areas and the fight against child trafficking in general and children with disabilities in particular are improved by the end of 2025".

Since 2023, with the financial support of various partners through GlobalGiving , a leading organization for fundraising, several actions have been carried out. These include:

- Recruitment and training of two (2) additional teachers;
- Coverage of salaries of three (3) teachers, the Director and other support staff;
- Acquisition of teaching materials and consumables (tables, chairs, tables-benches, cupboard, chalk and specialized tools for the hearing impaired), etc.;
- Acquisition of three (3) children's play modules;
- Financial support for classroom rental costs, water and electricity bills throughout the school year;
- Acquisition of a plot of land with an area of 2 ares and 25 centiares for a school construction project.

ACTIVITIES CARRIED OUT

In May 2025, the CAV NGO received funding from the COCHRAN Family through GlobalGiving . This funding enabled the start of construction of 3 classrooms, 1 office and 1 store.

The activities were carried out from June 1^{to} July 20, 2025. These include excavation, the manufacture of concrete blocks , the transport of sand and gravel, the purchase of cement and irons for the start of construction.

New funding will enable progress to be made in the construction of the classrooms in this school for the development of hearing-impaired children.

On behalf of the Board of Directors and technical staff of the NGO CAV, we express our sincere gratitude to the COCHRAN family and to GlobalGiving for all the mobilization of resources.

Done in Sokodé, July 21, 2025.

For the NGO CAV, the National Coordinator
